BACHMANN TRAINS

AMERICA'S SEMIQUINCENTENNIAL

Celebrate the United States of America's 250th anniversary with patriotic train sets, locomotives, and rolling stock from Bachmann. From our limited-edition American Freedom Train GS-4 steam set to locomotives, motorized railcars, and milling stock in various historical and patriotic red, white, and blue schemes, there are plenty of ways to pay tribute to America's Semiquincentennial on your model railroad. See the Celebrating America section for more.

Bachmann Icon System Guide

The Bachmann icon system is designed to help you learn more about each model in our product line, such as which historical eras each locomotive or rolling stock product is appropriate for, and what features may be included. See below for a full explanation of each icon.

Working Headlight
Models with this symbol feature a functioning forward-facing headlight.

Interior Lighting
Models with this symbol feature a lighted interior.

Directional Lighting
Models with this symbol feature both forward and rear-facing headlights which will realistically dim or turn off when the direction of the locomotive changes.

E-Z Mate® Mark II Equipped
Models with this symbol are equipped with E-Z Mate® Mark II knuckle couplers featuring magnetic coupling and uncoupling.

Operating Parallelogram
Models with this symbol feature a possible parallelogram that can be used to power the locomotive via overhead alone.

Knuckle Couplers
Large Scale models with this symbol include prototypical AAR knuckle couplers.

Speaker Equipped
Models with this symbol are equipped with a built-in speaker for DCC/sound operation. Refer to the model's feature list to see whether DCC is also included.

European Style Hook and Loop Couplers
Models with this symbol feature couplers compatible with British or European models.

Ditch Lights or Marker Lights
Models featuring this symbol are equipped with additional lighting features such as ditch lights or marker lights.

Removable Load
Rolling stock with this symbol features a freight load that can be added or removed.

Opening Doors
Models with this icon feature possible opening doors.

Metal Construction
Locomotive or rolling stock with this symbol feature primarily die-cast metal construction.

Smoke Unit Equipped
Models with this icon feature an operating smoke unit.

Choosing Your Model Based on Era

We've categorized American railroad history into six distinct eras. Each model now includes the symbol for the eras it could be found operating in. If the prototype locomotive or rolling stock was used over a time period spanning multiple eras, all appropriate era symbols are included.

1827 - 1880
Early Railroad Era

1880 - 1910
Pioneer Era

1910 - 1940
Golden Era

1940 - 1970
Transition Era

1970 - 1990
Second Generation Era

1990 - 2025
Modern Era

Model of Preserved Locomotive or Rolling Stock

Look for this symbol next to individual locomotives or rolling stock products to find models of historical pieces that are preserved today in the same paint scheme.

We strive to provide accurate information, but production issues sometimes occur that may alter the features of a particular item. Therefore, final product or pricing may vary from the information presented on these pages.

CELEBRATING AMERICA

HO Scale American Freedom Train

NEW

Limited Edition E-Z Track® set with E-Z Mate® couplers

Item No. 00789 • Suggested price: \$499.00

There's nothing quite like a train to bring a nation together. An entrepreneur by the name of Ross Rowland Jr. shared a similar sentiment as America's bicentennial approached. Inspired by the 1947 Freedom Train, which traveled the country following World War II, the bicentennial American Freedom Train would visit all 48 contiguous United States between 1975 and 1976 as a traveling display of American artifacts and camaraderie. The tour would make stops in 140 communities, with Southern Pacific™ GS-4 locomotive #4449 leading the charge for much of the tour. As we celebrate America's sesquicentennial and the 50th anniversary of this momentous journey, Bachmann is delighted to bring the spirit of the American Freedom Train to HO scale with this limited edition collectible train set.

This ready-to-run train set includes:

- GS-4 4-8-4 steam locomotive with smoke and operating headlight
- two 72" smooth-side exhibit cars with lighted interiors and simulated displays
- 85" heavyweight observation car with lighted interior
- body-mounted E-Z Mate® couplers
- 81" x 45" oval of snap-fit E-Z Track® including 16 pieces of 22" radius curved track, 7 pieces of straight track, and 1 plug-in terminal rerailer
- power pack and speed controller
- illustrated instruction manual
- collector's card with individual production number for this limited edition set (1000 produced)

HO SCALE AMERICAN FREEDOM TRAIN EXHIBIT CARS with LIGHTED DISPLAYS

Performs best on 22" radius curves or greater.

Suggested price: \$95.00 each

Expand your American Freedom Train to include more cars from the authentic consist with four 72" smooth-side exhibit cars. Each real-life car featured walk-through displays of historic American artifacts, while external shadow boxes and artwork panels represented two decades of American history on each side of the car. These models are lighted for optimum realism.

HO Scale Norman Rockwell Freedom Train

an E-Z Track® set with E-Z Mate® couplers

Item No. 00767 • Suggested price: \$409.00

Bachmann is proud to honor one of America's most beloved artists, Norman Rockwell, with the Norman Rockwell Freedom Train. In 1941, U.S. President Franklin D. Roosevelt addressed Congress with his hopes for America after World War II, emphasizing a vision of four basic freedoms: freedom of speech, freedom of worship, freedom from want, and freedom from fear. Rockwell painted each of these freedoms as part of his desire to do more for the war effort, naming the series the Four Freedoms. This artwork would help elevate Rockwell to an icon of American culture after being printed in *The Saturday Evening Post*. In May of 1943, Rockwell joined a combined campaign by the Post and U.S. Department of the Treasury to sell war bonds and stamps through a travelling rail exhibit. Every citizen who bought war bonds through the campaign received printed copies of the Four Freedoms in return. The Freedom Train, adorned in a patriotic red, white, and blue paint scheme, rode the rails from September of 1947 to January of 1949 to 16 U.S. cities highlighting American heritage and the importance of preserving important American documents. 133 items in total were featured on the train, including Rockwell's Four Freedoms and original versions of the United States Constitution and Declaration of Independence. The classic artwork's next stop is in your HO scale layout, where Bachmann's Norman Rockwell Freedom Train embodies the same hopeful message of its namesake.

Norman Rockwell.

HO SCALE 50' SLIDING DOOR BOXCAR - US SAVINGS BONDS

Suggested price: \$49.00 each

Between the late 60s and early 70s, several railroads promoted the purchase of U.S. Savings Bonds by adding graphics related to the program on the side of boxcars, effectively using them as rolling billboards. Bachmann pays tribute to this eye-catching series of cars with five schemes from railroads across the United States.

Features include:

- Detailed body with precision graphics
- Separately applied roofwalk on appropriate models and brake wheel
- Opening sliding doors
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

E-Z COMMAND® SOUND VALUE TRAIN SETS

Echo Valley Express with Digital Sound

an E-Z Track® set with E-Z Mate® couplers

Item No. 00825 • Suggested price: \$539.00

A whistle echoes through the walls of a deep valley as you hear the unmistakable chuffing of a classic steam locomotive approaching. The Echo Valley Express is steaming ahead with carloads of coal to fuel America's hungry furnaces. It features a DCC sound-equipped Alco 2-6-0 with a steam sound package that includes authentic prototypical chuff, short and long whistles, bell, air compressor, and blower—all in polyphonic 16-bit sound that you control with our E-Z Command® digital control system.

This digitally controlled train set with sound features:

- DCC sound-equipped Alco 2-6-0 steam locomotive with tender and operating headlight
- gondola
- quad hopper
- off-set cupola caboose
- E-Z Command® Plus Control Center with wall pack and plug-in wiring
- body-mounted E-Z Mate® couplers
- 56" x 38" oval of snap-fit nickel silver E-Z Track® including 12 pieces of curved track, 3 pieces of straight track, and 1 plug-in terminal rerailer
- illustrated instruction manual

Thunder Chief with Digital Sound

an E-Z Track® set with E-Z Mate® couplers

Item No. 00826 • Suggested price: \$539.00

With the roar of its mighty motor and a blast of its horn, the Thunder Chief announces its arrival. Commanding the attention of one and all, there is no missing the excitement of the Thunder Chief storming into the station. This set features a DCC sound-equipped F7-A locomotive with a diesel sound package that includes prototypical prime mover, 3 air horns, and bell—all in polyphonic 16-bit sound that you control with our E-Z Command® digital control system.

This digitally controlled train set with sound features:

- DCC sound-equipped F7-A diesel locomotive with operating headlight
- 40' boxcar
- three-dome tank car
- off-set cupola caboose
- E-Z Command® Plus Control Center with wall pack and plug-in wiring
- body-mounted E-Z Mate® couplers
- 56" x 38" oval of snap-fit nickel silver E-Z Track® including 12 pieces of curved track, 3 pieces of straight track, and 1 plug-in terminal rerailer
- illustrated instruction manual

ELECTRIC and E-Z COMMAND® TRAIN SETS

Acela® Set

an E-Z Track® set

Item No. 01205 • Suggested price: \$769.00

Spectrum®

The high-speed passenger train that revolutionized U.S. rail travel is now available with a paint scheme that includes updated logo graphics, new car and locomotive numbers, and WiFi symbols. Also updated are warm white headlights and ditch lights. As an official Amtrak® licensee of the Acela® train, we're proud to present this DCC-equipped* model in our award-winning Spectrum® line. Our Acela® features dual locomotives (one powered, one non-powered) that can reach scale speeds of 150 mph. The Acela® set comes complete with first-class passenger car; and business class passenger car; Café Acela® car; 22" radius, 81" x 45" oval of nickel silver E-Z Track®; power pack and speed controller; and illustrated instructions.

Locomotive features:

- DCC-equipped for speed, direction, and lighting
- interior selector switch for choice between rail and pantograph operation
- die-cast gear towers and chassis
- precision motor
- working directional headlights, ditch lights, and markers (warm white and red)
- operating doors

*Bachmann E-Z Command® Plus or other NMRA-compliant digital control system required for DCC operation. An analog controller is included with this set for standard DC operation.

Digital Commander

an E-Z Track® set with E-Z Mate® couplers

Item No. 00501 • Suggested price: \$654.50

The Digital Commander has everything you need to get started in digital model railroading in one ready-to-run set! It includes our exclusive, easy-to-use E-Z Command® Plus digital system that lets you independently control the speed, direction, and lighting of two decoder-equipped locomotives. Take control of your own freight rail empire with the Digital Commander!

This digitally controlled train set features:

- DCC-equipped EMD GP40 locomotive with operating headlight
- DCC-equipped EMD FT-A locomotive with operating headlight
- plug-door boxcar
- open quad hopper
- wide-vision taboose
- E-Z Command® Plus Control Center with wall pack and plug-in wiring
- body-mounted E-Z Mate® couplers
- 56" x 38" oval of nickel silver E-Z Track®, including 12 pieces curved track, 4 pieces straight track, 1 terminal rerailer, 1 manual turnout – left, under-track magnet with brakeman figure, and 1 Hayes bumper

Amtrak® Acela® II Set

an E-Z Track® set, ready for DCC and Sound Installation

Item No. 01206 • Suggested price: \$899.00

NEW
RETURN

Concrete Tie E-Z Track®

SPECTRUM®

The Amtrak® NextGen Acela™ (operating title of the Acela® II) is ready to provide modern high-speed service on your HO scale railroad. Designed using official blueprints and prototype references, the Bachmann model of the Amtrak® NextGen Acela™ arrives with two power cars, DCC-and-sound-ready for the installation of your choice of decoder, three intermediate passenger cars with interior lighting, and an oval of broad, 22" radius Concrete Tie E-Z Track®. Launch a new era of American high-speed rail on your layout, and experience NextGen Acela™ style and speed in scale Spectrum® quality.

Locomotive features:

- powered sound-and-DCC-ready locomotive
- non-powered locomotive with functioning lights
- precision motor
- working directional LED headlights and marker lights
- operating ditch lights and number board lights
- selector switch for choice between rail and pantograph operation

Passenger Car features:

- fully furnished interiors
- LED interior lighting
- prototypical details per car
- articulated coupling system

Amtrak® City Sprinter

an E-Z Track® set with E-Z Mate® couplers, ready for DCC and Sound Installation

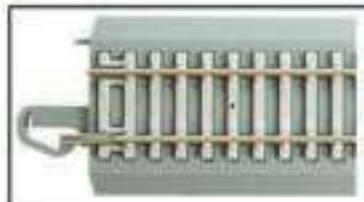

Item No. 00772 • Suggested price: \$679.00

Recreate the thrill of high-speed electric passenger railroading with the new Amtrak® City Sprinter HO scale train set. Take control of the Siemens ACS-64 electric locomotive and three lighted Amfleet passenger cars as you rush passengers between destinations along the famous Northeast Corridor. This set features an ACS-64 electric locomotive, ready-to-run with analog control and speaker-equipped for upgrading to sound and DCC, an oval of E-Z Track® with concrete ties and broad 22" radius curves for modern, high-speed operation, speed controller, and a wall power pack.

Norman Rockwell Christmas Express

an E-Z Track® set with E-Z Mate® couplers

Item No. 00774 • Suggested price: \$349.00

Glide through a winter wonderland with this festive tribute to Norman Rockwell, one of America's most iconic artists. Featuring a classic 0-6-0 steam locomotive with operating headlight, old-time combine, 50' boxcar, and bobber caboose, this set depicts several joyful illustrations from the Norman Rockwell collection, including Santa checking his list, children riding a sled, and a classic Christmas depiction of Stockbridge Main Street, Rockwell's Massachusetts home town.

This ready-to-run train set includes:

- 0-6-0 steam locomotive with short-haul tender and operating headlight
- old-time combine
- 50' smooth-side boxcar
- bobber caboose
- body-mounted E-Z Mate® couplers
- 47" x 38" oval of snap-fit E-Z Track® including 12 pieces of curved track, 1 piece of straight track, and 1 plug-in terminal rerailer
- power pack and speed controller
- illustrated instruction manual

Norman Rockwell Freedom Train

an E-Z Track® set with E-Z Mate® couplers

Item No. 00767 • Suggested price: \$409.00

Bachmann is proud to honor one of America's most beloved artists, Norman Rockwell, with the Norman Rockwell Freedom Train. In 1941, U.S. President Franklin D. Roosevelt addressed Congress with his hopes for America after World War II, emphasizing a vision of four basic freedoms: freedom of speech, freedom of worship, freedom from want, and freedom from fear. Rockwell painted each of these freedoms as part of his desire to do more for the war effort, naming the series the Four Freedoms. This artwork would help elevate Rockwell to an icon of American culture after being printed in *The Saturday Evening Post*. In May of 1943, Rockwell joined a combined campaign by the Post and U.S. Department of the Treasury to sell war bonds and stamps through a travelling rail exhibit. Every citizen who bought war bonds through the campaign received printed copies of the Four Freedoms in return. The Freedom Train, adorned in a patriotic red, white, and blue paint scheme, rode the rails from September of 1947 to January of 1949 to 16 U.S. cities highlighting American heritage and the importance of preserving important American documents. 133 items in total were featured on the train, including Rockwell's Four Freedoms and original versions of the United States Constitution and Declaration of Independence. The classic artwork's next stop is your HO scale layout, where Bachmann's Norman Rockwell Freedom Train embodies the same hopeful message of its namesake.

Grand Canyon Railway **NEW**

an E-Z Track® set with E-Z Mate® couplers

Item No. 00792 • Suggested price: \$499.00

Since 1901, the Grand Canyon Railway has enchanted millions of people from all over the world. From industrial beginnings as an ore hauler to offering scenic excursions to the majestic South Rim, the story of the Grand Canyon Railway is almost as dramatic as the spectacular surroundings through which it travels. Today, the train is responsible for keeping approximately 50,000 cars outside of the park each year, helping to preserve the pristine, incredible beauty of the natural landscape. The Bachmann Grand Canyon Railway set brings the lovingly restored train to HO Scale, representing the historic locomotive and cars that today ply the rails between Williams, AZ, and the edge of the Grand Canyon. Get ready for an unforgettable adventure into the wild western landscape with the Grand Canyon Railway train set!

This ready-to-run train set includes:

- DCC-ready 2-8-0 locomotive and tender with operating headlight
- factory-installed 21-pin socket for the DCC decoder of your choice
- 85' heavyweight coaches
- 85' heavyweight observation car
- body-mounted E-Z Mate® couplers

American Freedom Train

NEW

Limited Edition E-Z Track® set with E-Z Mate® couplers

Item No. 00789 • Suggested price: \$699.00

There's nothing quite like a train to bring a nation together. An entrepreneur by the name of Ross Rowland Jr. shared a similar sentiment as America's bicentennial approached. Inspired by the 1947 Freedom Train, which traveled the country following World War II, the bicentennial American Freedom Train would visit all 48 contiguous United States between 1975 and 1976 as a traveling display of American artifacts and camaraderie. The tour would make stops in 140 communities, with Southern Pacific™ GS-4 locomotive #4449 leading the charge for much of the tour. As we approach America's sesquicentennial and the 50th anniversary of this momentous journey, Bachmann is delighted to bring the spirit of the American Freedom Train to HO scale with this limited edition collectible train set and range of authentically detailed add-on cars.

This ready-to-run train set includes:

- GS-4 4-8-4 steam locomotive with smoke and operating headlight
- two 72' smooth-side exhibit cars with lighted interiors and simulated displays
- 85' heavyweight observation car with lighted interior
- body-mounted E-Z Mate® couplers
- 81" x 45" oval of snap-fit E-Z Track® including 16 pieces of 22" radius curved track, 7 pieces of straight track, and 1 plug-in terminal rerailer
- power pack and speed controller
- illustrated instruction manual
- collector's card with individual production number for this limited edition set (1000 produced)

Golden Spike

NEW

an E-Z Track® set with E-Z Mate® couplers

Item No. 00791 • Suggested price: \$299.00

When East met West at Promontory, Utah, a course was set that would transform a nation in its infancy into a powerhouse of industry and commerce. As we celebrate 250 years of the industrious American story, we salute the railroad that helped forge this legacy with a classic mid-20th-century diesel freight consist, featuring the iconic EMD F7 diesel locomotive and four attractive freight cars. Climb aboard the Golden Spike and celebrate the legacy of American railroading in HO scale.

This ready-to-run train set includes:

- EMD F7 diesel locomotive with operating headlight
- 40' boxcar with opening doors
- gondola
- single-dome tank car
- offset Cupola caboose
- 47" x 38" oval of snap-fit E-Z Track®, including 12 pieces of curved track, 1 piece of straight track, and 1 plug-in terminal rerailer

Daylight Special

an E-Z Track® set with E-Z Mate® couplers

Item No. 00776 • Suggested price: \$609.00

There are few paint schemes more iconic in railroad history than the Southern Pacific™ Daylight livery. Bringing vibrant tones of orange, white, and red to the rails of the Pacific Coast, the Daylight streamliners operated express services between Los Angeles and San Francisco, while locomotives carrying the same scheme could also be found across Southern Pacific™ rails, from Portland, Oregon, to New Orleans, Louisiana. Relive the golden age of western streamlined steam with the Daylight Special, featuring a powerful GS-4 4-8-4 steam locomotive with smoke, and three classic smooth-side passenger cars.

This ready-to-run train set includes:

- Southern Pacific™ GS-4 4-8-4 steam locomotive with smoke and operating headlight
- 72' smooth-side baggage car
- 85' smooth-side coach with lighted interior
- 85' smooth-side observation car with lighted interior

The biggest and the best for serious railroad enthusiasts. From a powerful 4-8-4 steam locomotive, to an impressive consist of nine cars, this set has it all! The Overland Limited comes complete with Bachmann's exclusive E-Z Track® snap-fit track and roadbed system.

This ready-to-run train set includes:

- Union Pacific® 4-8-4 steam locomotive and tender with operating smoke and headlight
- grain car
- three-dome tank car

- flatcar with logs
- center-flow hopper
- open quid hopper
- two plug-door boxcars
- wood stock car
- wide-vision caboose
- body-mounted E-Z Mate® couplers
- 63" x 54" oval of snap-fit E-Z Track® with 16 pieces of 22" radius curved track, 5 pieces of straight track, and 1 plug-in terminal trailer
- power pack and speed controller
- illustrated instruction manual

ELECTRIC TRAIN SETS

The DeWitt Clinton **NEW**

an E-Z Track® set with E-Z Mate® couplers

Item No. 00790 • Suggested price: \$209.00

Named for the Father of the Erie Canal, the DeWitt Clinton was the third American locomotive on record to operate under steam in public service. On August 9, 1831, the DeWitt Clinton completed its maiden journey from Albany to Schenectady, New York, in a record 38 minutes via the Mohawk and Hudson Railroad. During this trip it reached an astounding 26 miles per hour. Bachmann honors this exciting piece of American history with the only available HO scale replica of the DeWitt Clinton, arriving with a full, authentic consist of cars and an oval of snap-fit E-Z Track®.

This ready-to-run train set includes:

- DeWitt Clinton 0-4-0 steam locomotive with engineer figure
- Tender with wood load and water barrels
- Three prototypical carriage-style passenger cars
- Updated motor for superior performance
- Blackened nickel silver wheels on the locomotive and tender
- 47" x 38" oval of snap-fit nickel silver E-Z Track®, including 12 pieces of curved track, 1 piece of straight track, and 1 plug-in terminal re-railer
- Power pack and speed controller
- Illustrated instruction manual

STEAM LOCOMOTIVES

BALDWIN EM-1 2-8-8-4 (SOUNDTRAXX® TSUNAMI2™ DCC SOUND EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$799.00.

Based on the Yellowstone design, the EM-1 was developed by the Baldwin Locomotive Works for hauling coal across the Alleghenies on the Baltimore & Ohio's Pittsburgh Division. A latecomer in steam, the massive, articulated design was the result of wartime restrictions on the construction of more technically advanced diesel locomotives. Between 1944 and 1945, thirty of these behemoths were delivered, lasting in service for just 15 years. During this period they would see operation not only on coal trains, but on mixed freights, mail, and express passenger services (thanks to being fitted with roller bearings). In later years, they could be found west of the Alleghenies hauling lake-bound coal trains, while some of their final duties included fan trips in the late 1950s. Despite at least one being earmarked for preservation, all were scrapped in the early 1960s, bringing the era of big steam on the B&O to a close. Making its grand return to Bachmann's HO Scale Spectrum line, the head-turning EM-1 arrives in 2025, now with thunderous Soundtraxx® Tsunami2™ DCC and sound, ensuring the legacy of these mighty machines lives on - if only in scale size.

Features include:

- Soundtraxx® Tsunami2™ DCC sound-equipped
- Dual-mode NMRA-compliant decoder for DCC and analog operation
- Soft-white LED directional headlight and tender backup light
- Precision motor with brass flywheel
- Die-cast chassis
- Prototypical articulated construction with metal drivers
- Separately applied handrails, stanchions, piping, smokebox herald, and more
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours
- Chuffinity™ technology for prototypical load-based chuff intensity
- dual-mode NMRA-compliant decoder for use on digital (DCC) or analog (DC) systems
- LED directional headlights with Rule 17 dimming
- die-cast frame and boiler
- Boxpok or Scullin drivers per prototype
- magnetically operated E-Z Mate® Mark II couplers

STEAM LOCOMOTIVES

**LIMA LOCOMOTIVE WORKS 80-TON
THREE-TRUCK SHAY
(SOUNDTRAXX® TSUNAMI2™
DCC SOUND EQUIPPED)**

Performs best on 22" radius curves or greater.

Suggested price: \$799.00 each

One of the most unique steam locomotives to grace the Bachmann line makes its highly anticipated return in 2026. Based on a patented design by logging entrepreneur Ephraim Shay, the 80-ton three-truck model was one of the most popular standard-gauge configurations for this classic geared locomotive. Designed for optimal performance on the tough grades and rough track common to logging railroads, the Shay remained popular long after steam was retired from conventional use, and many went on to gain a second career in preservation. Arriving with new, durable metal gears and Soundtraxx® Tsunami2™ DCC/sound, the 80-Ton Three-Truck Shay arrives in three new and authentic paint schemes, in addition to painted/unlettered for adding to your proprietary industry or roster.

Features include:

- Soundtraxx® Tsunami2™ DCC sound-equipped
- Dual-mode NMRA-compliant decoder for DCC and analog operation
- Soft-white LED directional headlight and tender backup light
- Complete prototypical drivetrain with metal gears
- Functioning piston rods and valve gear
- Separately applied stack, domes, and cab
- Separate detail parts, including bell, whistle, pop valves, cut levers, sanding lines, and handrails
- Detailed cab interior with lighted firebox

- Finescale brake rigging and double truss rods
- Steel or wood-style cab designs with oil or coal bunker configurations
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with tapered spokes and RP25 contours

K4 4-6-2 PACIFIC STEAM LOCOMOTIVE (TCS WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$659.00 each

The Pennsylvania Railroad's K4 4-6-2 locomotive, originally produced for passenger service, was considered the premier steam engine of the PRR system until the end of steam service in 1957. Quickly recognized for its ruggedness and reliability, the locomotive was one of the few used for both passenger and freight service throughout the PRR system. Known as Pennsylvania's state steam locomotive since 1957, our model is offered with a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist® for easy programming without CVs, as well as a Keep-Alive® device for uninterrupted operation, even over dirty track. The K4 arrives factory-set for maximum realism with a steam locomotive sound package that includes whistle, bell, blow down, cylinder cocks, water fill, coupler close and release, brake application and release, momentum, grade-crossing quill, departing and arriving station announcements, and more.

Additional features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality
- dual-mode, NMRP-compliant decoder
- precision motor
- load-based chuff intensity with Chuffinity™ technology
- operating headlight
- all-metal chassis and die-cast trailing truck
- blackened-metal wheels with RP25 contours
- blackened-metal sideroads
- painted engineer and fireman figures
- separately applied parts, including injectors, pump, and piping
- metal cut levers
- E-Z Mate® Mark II couplers, front and rear

STEAM LOCOMOTIVES

DREYFUSS STREAMLINED HUDSON (TCS WOWSOUND® DCC EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$604.00 each

Entering service in 1938, the Streamlined Hudson was one of several locomotives that would come to define the Art Deco period of design. While the locomotive remained mechanically identical to previous, non-streamlined Hudsons, the styling by industrial designer Henry Dreyfuss updated the external cladding to rival the modern appearance of its early-diesel peers. The locomotive and matching passenger car sets were primarily used on the prestigious 20th Century Limited between New York and Chicago until being phased out in favor of diesel power in 1945. The Bachmann Dreyfuss Streamlined Hudson arrives with all of the authentic and interactive features found on the standard J3a Hudson, including dual-mode TCS WOWSound® DCC with CD-quality audio, a Keep Alive® device for uninterrupted performance, and Chuffinity™ technology for prototypical load-based chuff intensity.

Features include:

- DCC equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy setup of almost all decoder functionality
- Chuffinity™ technology for prototypical load-based chuff intensity
- dual-mode NMRA-compliant decoder for use on digital (DCC) or analog (DC) systems
- LED directional headlights with Rule 17 dimming
- die-cast frame and boiler
- Boxpak or Scullin drivers per prototype
- magnetically operated E-Z-Mate® Mark II couplers

NEW YORK CENTRAL 4-6-4 J-3a HUDSON
(TCS DCC WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$560.00 each

WOWSound

As the demand for rail travel increased in the 1920s, the need for faster, more powerful locomotives to pull the 20th Century Limited and other express services along the New York Central's Water Level Route became clear. The solution was delivered by the American Locomotive Company in 1927, as the 4-6-4 Hudson entered service alongside its namesake Hudson River. The type quickly became a symbol of both the New York Central and fast, luxury rail travel. Factory-set for maximum realism and equipped with a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist®, the Hudson arrives with a steam locomotive sound package that features user-definable whistle options, bell, blowdown, cylinder cocks, water fill, coupler close and release, brake application and release, momentum, grade crossing quill, station announcements, and more.

Extra horn dummy
coupler in down
position included.

Additional features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound

N&W CLASS J 4-8-4 & TENDER with OPERATING HEADLIGHT
(DCC ECONAMI™ SOUND VALUE-EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$538.00 each

Designed for optimum-speed passenger service, the "J" was the last mainline steam locomotive to run in the United States. In 2015, class member #611 was returned to steam following a successful restoration campaign and was given the name *Spirit of Roanoke*. Our Class J 4-8-4 features a DCC Sound Value SoundTraxx® steam package that includes authentic prototypical chuff, short and long whistles, bell, air pump, steam release, and blower—all in 16-bit polyphonic sound.

Features include:

- DCC sound-equipped
- dual-mode NIMRA-compliant decoder for use on digital (DCC) or analog (DC) system
- precision motor
- operating headlight
- separately applied metal parts
- alligator cross heads
- see-through frame
- RP25 wheels
- E-Z Mate® Mark II couplers

USRA LIGHT 2-8-2 STEAM LOCOMOTIVE & TENDER with OPERATING HEADLIGHT (DCC READY with NMRA 21-PIN PLUG)

Performs best on 18" radius curves or greater.

Suggested price: \$389.00 each

The 2-8-2 Mikado was one of the most prevalent steam locomotives in North America during the first half of the 20th century. Approximately 2,200 were constructed by the three major locomotive manufacturers, each of which based its design closely on a configuration developed by the United States Railroad Administration (USRA) during the nationalization of railroads in World War I. Despite being outpowered by subsequent locomotive models, they remained in front-line service until the end of steam in the late 1950s. Our DCC-ready USRA Light model has a factory-installed 21-pin socket for the DCC decoder installation of your choice.

Features include:

- Authentic USRA standard design
- All-metal chassis
- See-through frame
- Separately applied metal handrails and uncoupling levers
- Separate plastic components, including whistle, bell, classification lights, air compressor, ladders, and piping
- Road-specific headlight placement and type, bell placement, trailing truck design, and tender styles
- Operating headlight and reverse light with automatic direction control
- Magnetically operated E-Z Mate® Mark II couplers on the front and rear
- E-Z Mate® Mark II couplers

4-4-0 AMERICAN STEAM LOCOMOTIVE
(DCC READY with 21 PIN PLUG)
Performs best on 15" radius curves or greater.
Suggested price: \$299.00 each.

From moving troops and supplies in a divided nation to definitively uniting the country in steel at Promontory, it's little wonder that the 4-4-0 is known simply as the "American." Larger than its predecessors and powerful enough to transform the railroad into an essential transcontinental system, the 4-4-0 was further immortalized in later years as a star in countless Western movies. To this day, its classic appearance and opulent decoration evoke the adventurous spirit of the Old West and the pioneering determination of a nation in its youth.

Features include:

- Classic period design
- Separately applied metal handrails and sand lines
- Locomotive-specific details include stack, domes, bell, whistle, and tender trucks
- Wood or coal load per prototype
- Die-cast chassis
- Completely hidden drivetrain
- See-through frame
- Operating warm-glowing LED headlight

SIEMENS ACS-64 ELECTRIC LOCOMOTIVE (TCS DCC WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$525.00 each

Built to modernize "America's Railroad," the Amtrak Cities Sprinters have state-of-the-art features such as regenerative braking that can feed energy back into the power grid. The latest generation of electrics for the Northeast Corridor, the ACS-64 can reach speeds of 125 mph. Bachmann's feature-packed model reflects the innovative technology of the prototype. Our ACS-64 includes a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist® for easy configuration without programming CVs, as well as a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® electric locomotive sound package includes horn, bell, cooling fan/power inverter, pantograph extension and retraction, coupler close and release, brake release and application, crew alert, grade-crossing quill, departing and arriving station announcements, and more.

Features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy setup of almost all decoder functionality

WOWSound

- dual-mode NMRA-compliant decoder
- fully remappable light functions that include blinking dash lights, on/off marker lights, and directional headlights with Rule 17 dimming
- die-cast frame
- selector switch for choice between rail and pantograph operation

DUAL-MODE LOCOMOTIVES

**SIEMENS SC42-DM CHARGER
(TCS DCC WOWSOUND® EQUIPPED)**
Performs best on 22" radius curves or greater.
Suggested price: \$549.00 each

PROTOTYPE PHOTO COURTESY OF THE METROPOLITAN TRANSPORTATION AUTHORITY

The latest variation of Siemens Charger locomotives joins Bachmann's lineup with the dual-mode SC42-DM. While similar in appearance to other Charger models, the SC42-DM is designed for commuter operation out of New York City, utilizing third rail electric power in Manhattan, before switching to conventional diesel-electric power once out of the city. Operated by MTA Metro-North Railroad, the SC42-DM is set to become the primary power for locomotive-hauled commuter rail service on all lines east of the Hudson River in the coming years. The Bachmann SC42-DM has been developed in collaboration with Siemens Mobility to ensure prototypical accuracy and arrives with authentic details, retooled trucks featuring third rail pickup shoes, and all of the sound and lighting functions you've come to expect from a Bachmann Charger model.

Features include:

- Siemens-approved design
- TCS WOWSound® DCC sound-equipped
- Dual-mode NMRA-compliant decoder for DCC and analog operation
- LED directional headlights, ditch lights, and marker lights
- Interior corridor work lights
- Precision motor
- Model-specific trucks with third rail pickup shoes (non-functioning)
- Die-cast frame with separately applied windshield wipers, grab irons, and details
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

**SIEMENS ALC-42 CHARGER
(TCS DCC WOWSOUND[®] EQUIPPED)**

Performs best on 22" radius curves or greater.

Suggested price: \$549.00 each.

Based on the highly successful medium-distance SC-44 Charger, the ALC-42 displays a range of new features for cross-country service on America's most scenic and storied routes, including a unique nose design and cab door configuration. Bachmann's ALC-42 Charger has been developed in collaboration with Siemens Mobility, using original design documentation and prototype field recordings for maximum realism. Features include a TCS WOWSound[®] CD-quality 16-bit 44,100Hz decoder with Audio Assist[®] for easy configuration without CVs, and a Keep-Alive[®] device for uninterrupted operation, even over dirty track. The WOWSound[®] diesel-electric locomotive sound package includes an authentic horn, bell, prime mover, startup/shutdown, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade crossing quill, station announcements, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist[®] programming tool for easy set-up of almost all decoder functionality
- dual-mode NMRA-compliant decoder
- directional headlights and marker lights
- interior corridor work lights
- steady/alternate flashing ditch lights
- die-cast frame with separately applied windshield wipers, grab irons and detail parts

SIEMENS SC-44 CHARGER (TCS DCC WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$549.00 each

Each unit's DCC sound-equipped SC-44 Charger uses Siemens Mobility's original design documentation and prototype field recordings. This model includes a TCS WOWSound® CD-quality 36-bit 44,100Hz decoder with Audio Assist® for easy configuration without programming CVs and a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive sound package includes horn, bell, prime mover, start-up/shutdown, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade-crossing quill, departing and arriving station announcements, and more. Loaded with prototypical features, the Charger brings all the sights and sounds of Siemens' diesel-electric locomotive to your layout.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audio in 36-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy setup of almost all decoder functionality
- dual-mode NMRA-compliant decoder

GENERAL ELECTRIC DASH B-40CW (TCS SOUND VALUE-EQUIPPED)

Performs best on 18" radius curves or greater.

Suggested price: \$499.00 each

Entering service in 1989, the Dash B-40CW was the first in General Electric's line of road diesels to feature the North American Safety Cab (otherwise known as the wide-cab design). It would set the standard for the basic appearance of all GE locomotives for the next two decades, becoming an icon of North American freight railroading. Bachmann's Dash B-40CW features newly added operating ditch lights, a TCS Sound Value DCC package for sound, speed, direction, and lighting control, and comes ready-to-run on both analog and DCC-equipped layouts.

Additional features include:

- DCC Sound Value-equipped for sound, speed, direction, and lighting control
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- dual-mode NMRA-compliant decoder
- operating headlight and ditch lights
- all-wheel drive
- blackened metal wheels with RP25 contours
- E-Z Mate® Mark II couplers

**GENERAL ELECTRIC C36-7
(SOUNDTRAXX® TSUNAMI2™ DCC EQUIPPED)**

Suggested price: \$549.00 each

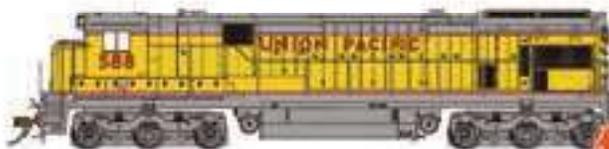

Built between 1978 and 1989, the C36-7 was the final locomotive to be offered in General Electric's successful "Dash 7" series. Capable of producing up to 3,750 horsepower, the majority of production C36-7s were purchased by China Railways and other overseas operations, while a number of examples were ordered for use by US, Canadian, and Mexican railroads. Mainline operation in the United States lasted through the mid-2000s, and examples can still be found today running on several short lines. Bachmann is excited to announce the first-ever consumer model of the North American C36-7 in HO scale. Featuring prototypical details, the C36-7 comes equipped with dual-mode DCC and Soundtraxx® Tsunami2™ Sound on Board™. Sounds featured include an authentic GE FDL16 prime mover, several horn and bell options, startup and shutdown, and air compressor.

Features include:

- Soundtraxx® Tsunami2™ DCC equipped for sound, speed, direction, and lighting control
- dual-mode NMRA-compliant decoder for use on digital (DCC) or analog (DC) systems
- LED directional headlights with Rule 17 dimming
- separately applied details such as railings, windshield wipers, and cut levers
- die-cast chassis
- authentic features specific to North American examples
- magnetically operated E-Z Mate® Mark II couplers

EMD GP38-2 (SOUNDTRAXX® ECONAMI™ DCC SOUND VALUE-EQUIPPED)

Performs best on 18" radius curves or greater.

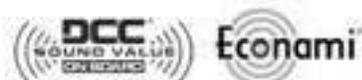

Suggested price: \$429.00 each

Entering service in 1972 as a successor to the GP38, the GP38-2 remained in production until 1986, becoming one of the most popular four-axle road switchers of the "second generation" diesel era. A total of 2,364 examples were constructed, with the majority going to operators in the United States, Canada, and Mexico. Demonstrating efficient performance in lighter duties, the GP38-2 could be found in yards and on local freight jobs, while certain examples were geared for passenger service with commuter operators. The Bachmann GP38-2 returns to our HO Scale line with newly upgraded Soundtraxx® DCC, now featuring Econami™ sound, and new paint schemes and road numbers.

Features include:

- Soundtraxx® Econami™ Sound Value® equipped
- Dual-mode NMRA-compliant decoder for DCC and analog operation
- LED directional headlights with Rule 17 dimming
- Precision motor
- Die-cast chassis
- Roadname-specific dynamic brakes and non-dynamic brake configurations

EMD GP7 DIESEL LOCOMOTIVE (DCC READY with 8-PIN PLUG)

Performs best on 18" radius curves or greater.

Suggested price: \$239.00 each

Manufactured between 1949 and 1954, the GP7 was EMD's first successful diesel road switcher. 2,729 units were constructed over a five-year period, with EMD barely managing to keep up with demand. The type would set the stage for EMD to become one of the most successful locomotive manufacturers of the latter half of the 20th century, and despite their age, many remained in service well into the 1980s. Now in their 7th decade, a selection of examples continue to find use on short lines and tourist railroads to this day. Our GP7 comes with directional lighting and a factory-installed 8-pin socket for the DCC decoder installation of your choice.

EMD BL2 DIESEL LOCOMOTIVE (DCC EQUIPPED)

Suggested price: \$289.00 each

**DCC[®]
ON BOARD**

Standing for "Branch Line Locomotive" the BL2 was EMD's first foray into lighter-duty switching power, with production commencing in 1947. Designed for improved visibility for the engineer during operation, the locomotive was one of the earliest diesels to feature a wide cab and a narrow long hood, allowing for a clearer view when operating reverse movements. With styling cues taken from the streamliners of its time, the BL2 has remained popular with railfans throughout the years. Originally utilized for both freight and passenger duties on secondary lines, examples can still be found in service today, handling excursions and short-line freight runs. The Bachmann BL2 arrives with DCC on Board[®], featuring new and existing tooling, authentic paint schemes, and directional LED headlights.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- dual-mode NMRA-compliant DCC decoder
- directional headlights with Rule 17 dimming
- magnetically operated E-Z Mate[®] Mark II couplers
- blackened machined metal wheels with RP25 contours

MOTIVE POWER

SIEMENS S70 LIGHT RAIL VEHICLE (DCC READY; with 21 PIN PLUG)

Price to be announced

Commencing operation in 2004, the S70 is the archetype of modern North American light rail vehicles, having played a crucial role in the 21st-century rebirth of urban rail transit. First adopted as the vehicle of choice for Houston's METRORail, the S70 today provides service on rail transit systems across the United States. With several configurations, the S70 is capable of providing effective service on both high-density streetcar-style systems and grade-separated light rail lines. Developed using official Siemens documentation, Bachmann is delighted to announce the HO Scale Siemens S70 as the first ready-to-run modern Light Rail Vehicle for the North American modeler. Arriving DCC Ready for operation under track or pantograph power, the S70 features two system-specific body configurations, prototypical details, and LED interior lighting.

Features include:

- Siemens-approved design
- DCC Ready for the decoder installation of your choice
- Fully furnished and lighted interior
- LED directional headlights, ditch lights, and marker lights
- Precision motor
- Selector switch for track or pantograph operation
- System-specific detail configurations, including two cab styles
- Separately applied details, including rear-view mirrors and flexible diaphragms
- Blackened metal wheels with RP25 contours

85' FULL-DOME PASSENGER CAR with LIGHTED INTERIOR

Performs best on 22" radius curves or greater.

Suggested price: \$93.00 each

In the mid-1950s, the Budd Company developed a series of full-length bi-level dome cars, offering a panoramic view for all passengers seated on the upper level, while the lower level featured a lounge area. A fleet of 14 "Big Domes" were delivered to the Santa Fe Railway in 1954, while 6 similarly configured "Great Domes" were delivered to the Great Northern Railway the following year. A number continued in revenue use into the 1990s under Amtrak*, with "Ocean View" remaining in service on the railroad until 2019. Others found further use as excursion cars on tourist railroads, while some were converted for use on corporate business trains.

1900s ERA 68' PASSENGER CAR

Suggested price: \$76.00 each

With railroads solidifying their position as a staple of American transportation during the turn of the 20th century, passenger accommodations evolved to match the growing demand. Longer cars with more amenities began to appear, featuring more robust frames and trucks designed for smoother operation. Today, early 1900s-era cars such as these can be experienced at museums and tourist operations, offering a glimpse into how Americans traveled as the frontier nation industrialized. The Bachmann 1900s Era 68' Passenger Car arrives newly-tooled with prototypical detail, metal wheels, and E-Z Mate® knuckle couplers.

Features include:

- Detailed interior
- Detailed underframe
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

WORKHORSE —SERIES—

Bachmann is pleased to introduce a new series to our HO Scale freight car range, designed to deliver an extra degree of realism to your model railroad. While most models replicate the appearance of rolling stock as it looks fresh from the paint booth, the Workhorse series reproduces select cars as they appeared after many years on the rails. Using a unique blend of application processes, the Workhorse series combines representations of faded paint, patchwork, rust, dirt, and grime to create a factory-applied weathered appearance based on actual prototypes. Increase the authenticity of your freight car roster with this new selection of Bachmann Workhorse series cars.

TRINITY 5161 3-BAY COVERED HOPPER

Suggested price: \$65.00 each

Standing for 5161 cubic-foot capacity, the Trinity Railcar 5161 is one of the most prevalent covered hoppers currently in operation on North American railroads. Debuting in service in 1995, the type can frequently be found both in unit trains and on mixed freight manifests, with over 27,000 in service. Designed for hauling bulk commodities, the 5161 is commonly used in the transportation of grain, sugar, plastics, and dry chemicals. Backmann's Trinity 5161 expands on our line of modern-day freight rolling stock and features separately applied components such as roof walks and brake wheels.

Features include:

- new and existing tooling
- authentic modern-era design
- highly detailed painted bodies with precision graphics
- separately-applied details
- magnetically operated E-Z Mate® Mark II couplers
- blackened machined metal wheels with RP25 contours

GATX 4180 AIRSLIDE HOPPER

Suggested price: \$65.00 each

With a capacity of 4180 cubic feet, the GATX 4180 Airslide Hopper was one of the first hoppers designed to meet a growing demand for larger bulk-transport cars suitable for shipping grain and other organic commodities. Designed and constructed by the General American Transportation Corporation, more than 5000 examples entered service between 1963 and 1980. Today, these uniquely styled cars can still be found in service, with many experiencing a second life as mandated buffer cars between the locomotives and revenue cars on unit oil and ethanol trains, and at the end of the train. The Bachmann GATX 4180 arrives with precision details, blackened metal wheels, and E-Z Mate[®] magnetic knuckle couplers.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- separately applied details
- blackened machined metal wheels with RP25 contours
- magnetically operated E-Z Mate[®] Mark II couplers

50' SLIDING DOOR BOXCAR - US SAVINGS BONDS

Suggested price: \$49.00 each

Between the late 60s and early 70s, several railroads promoted the purchase of U.S. Savings Bonds by adding graphics related to the program on the side of boxcars, effectively using them as rolling billboards. Bachmann pays tribute to this eye-catching series of cars with five schemes from railroads across the United States.

Features include:

- Detailed body with precision graphics
- Separately applied roofwalk on appropriate models and brake wheel
- Opening sliding doors
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

50' EXPRESS REEFER

Suggested price: \$59.00 each

Refrigerated rail transportation revolutionized the produce industry in North America, allowing fresh commodities from the west to be sold for the first time in the east, and vice-versa. To expedite the delivery of these time-sensitive goods, railroads attached Express Reefers to their priority passenger trains, adding one or more of these specially built cars ahead of the baggage and passenger cars.

Features include:

- highly detailed painted bodies with precision graphics
- blackened machined metal wheels with RP25 contours
- magnetically operated E-Z Mate® Mark II couplers
- non-magnetic blackened brass axles with needlepoint bearings
- Celcon® trucks

CHEMICAL TANK CAR

Suggested price: \$54.00 each

In addition to carrying essential liquids such as water, oil, and gasoline, tank cars also provide a safe and efficient means of transportation for hauling industrial chemicals. Due to the potentially volatile and sometimes corrosive nature of certain chemicals, these tank cars were designed to feature tougher construction and a specialized dome to provide greater protection for both the contents of the cars and those handling them. The Bachmann Chemical Tank Car incorporates new and existing tooling to replicate these cars in HO scale and includes detail differences per prototype, authentic road names, E-Z Mate® couplers, and blackened, machined metal wheels.

55' STEEL COIL CAR with COIL LOAD

Suggested price: \$2.00 each

Steel Coil Cars are specialized freight cars designed for carrying rolls of sheet metal for industrial use. Early examples debuted in the 1960s, and today the cars are a common sight on freight trains across North America.

Features include:

- highly detailed painted bodies
- removable coil hoods
- coil load
- precision graphics
- body-mounted EZ-Mate® Mark II couplers

50'6" DROP-END GONDOLA

Suggested price: \$50.00 each

Drop-End Gondolas feature end doors that can fold down to allow loads that are longer than the length of the car, such as pipes, beams, and rail sections, to be transported. Our Drop-End Gondola includes working, foldable car end doors, allowing you to recreate this practice on your model railroad.

52" AUTO CARRIER with SEDAN LOAD

Suggested price: \$76.00 each

As the demand for automobiles grew in the postwar era, larger dealer shipments and more efficient delivery processes were required. While it had previously been common practice to deliver vehicles in boxcars, this was a cumbersome routine, as loading involved careful maneuvering, and each car could only hold a couple of vehicles. Flatcars were also used, but while loading was more efficient, space per car was still limited. In the mid-1950s, the Frisco Railroad expanded on the latter format by constructing a second level above the flatcar deck, instantly doubling the per-car capacity. Other railroads soon followed with variations of this first iteration of the "autorack" specialized car carrier.

Features include:

- Newly tooled bi-level auto transport superstructure
- Detailed simulated wooden deck on the lower level
- Removable era-appropriate load of four sedans
- Detailed underframe
- Separately applied brake wheel
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

52" WHEEL FLATCAR with WHEEL LOAD

Suggested price: \$54.00 each

With the friction created from steel riding on steel, wheels on locomotives and rolling stock periodically need to be replaced for safety and smooth performance. When being delivered by rail, new wheels are typically transported on flatcars that have been built or modified for this specific purpose. The Bachmann 52" Wheel Flatcar represents examples of this car found from the 1950s through the early-2000s, the prototypes of which were modified from earlier general-use flatcars. Features of the model include a newly tooled wheel transport rack and load of separate wheelsets, all finished in an authentic oxide brown.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- removable plastic wheel load
- magnetically operated E-Z Mate® Mark II couplers
- blackened machined metal running wheels with RP25 contours

BRITISH RAILWAYS BRAKE VAN TRACK CLEANING CAR with international style hook-and-loop couplers

Suggested price: \$70.00 each

Brake Vans are the British equivalent of the North American Caboose. Much like their stateside counterparts, they could frequently be found at the rear of freight trains through much of the 20th Century. As technology advanced, many found a second career in maintenance-of-way operations, helping to keep the rail network moving. The Bachmann British Railways Brake Van can do exactly this for your railroad. The car's exclusive dry cleaning system features a reusable track cleaning pad to keep your rails shining and your operation trouble-free.

Features include:

- detailed body shell
- reusable and replaceable track cleaning pad
- all-metal wheels
- factory-installed international-style hook-and-loop couplers
- runs on all popular brands of HO track

SHORT BODY BAY WINDOW TRANSFER CABOOSE

Suggested price: \$87.00 each

Designed for the Missouri Pacific™ in the late 1970s, the Short Body Bay Window Caboose was one of the very last caboose styles to be built for class-one operation. With End-of-Train Devices fast replacing cabooses on the rear of road trains, the Short Body Bay Window Caboose was constructed with a design that could easily be adapted for shoving or "transfer" movements, featuring a longer platform on each end of the body for external riding. The basic design was adopted by several other railroads, including the Louisville & Nashville* (ultimately continuing in service under CSX* ownership) and Southern Pacific™, while many of the original MoPac cars continued in operation long after the Missouri Pacific™ merged into the Union Pacific® system.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- magnetically operated E-Z Mate® Mark II couplers
- blackened machined metal wheels with RP25 contours

E-Z MATE® COUPLERS

Magnetically Operated Knuckle Couplers

E-Z Mate® couplers make use of precision molding techniques to allow the molding of springs as an integral part of the knuckle coupler. E-Z Mate® Mark II couplers include an integrated metal coil spring. E-Z Mate® and E-Z Mate® Mark II couplers eliminate the problems and expense associated with separate coil springs.

To install E-Z Mate® and E-Z Mate® Mark II couplers, just remove the coupler pocket cover, drop in the coupler, and replace the cover. Operation is simple as well; E-Z Mate® and E-Z Mate® Mark II couplers operate with a standard metal "glad hand" and under-track magnet, and they are completely compatible with all magnetically operated knuckle couplers currently on the market. (Our under-track magnet comes with a trackside brakeman figure to indicate the magnet's position.) Coupling, uncoupling, and other yard operations are all performed with ease.

E-Z MATE® Magnetic Knuckle Couplers

12 coupler pairs per card • Suggested price: \$28.00 each card

E-Z TRACK® AND ACCESSORIES

NICKEL SILVER E-Z TRACK® AUTO-REVERSING TRACK SYSTEM

Item No. 44547 • Suggested price: \$260.00

Featuring our electronic auto-reversing E-Z Track®, this track set is the perfect solution for point-to-point passenger and freight transit on your layout. With a variable speed controller, you can determine the rate of travel and bring your town or city to life! Add-on track sections are also available separately (item Nos. 44548 & 44549).

- 4 pieces of 9" straight auto-reversing E-Z Track®
- 4 pieces of 18" radius curved auto-reversing E-Z Track®
- 2 pieces of 9" straight E-Z Track®
- 2 Hayes bumpers
- power pack and variable speed controller
- illustrated instructions

ELECTRONIC AUTO-REVERSING NICKEL SILVER E-Z TRACK®

Suggested price: \$57.00 each

You can expand your auto-reversing train set or track system with Electronic Auto-Reversing Nickel Silver E-Z Track® sections. Available in 9" straight and 18" radius curved sections, this electronically equipped track is specifically designed for the open-end track configuration of our auto-reversing track system, allowing you to go virtually anywhere on your layout.

AUTO-REVERSING 9" STRAIGHT
(4 per card)
Item No. 44548

Note: this track will not operate as reversing track unless it is used in conjunction with train set numbers 00401, 00402, 25016, 25017, 25100, or with our auto-reversing track system, item No. 44547.

AUTO-REVERSING 18" RADIUS CURVED
(4 per card)
Item No. 44549

FIVE-BAY ROUNDHOUSE with NICKEL SILVER E-Z TRACK®

Item No. 45020 • Suggested price: \$250.00

Designed to add to #46298 DCC-equipped Turntable. See E-Z Command® DCC section for more details.

Features include:

- 5 locomotive stalls
- 5 pieces of 9" straight track
- 5 track ends
- assembly required

**HO
SCALE**

E-Z TRACK® AND ACCESSORIES

DCC CONTROL BOX with TURNOUT DECODER

Item No. 44949 • Suggested price: \$45.00

- compatible with N, HO, On30, and O scales

**DCC
ON BOARD**

This control box with turnout decoder allows you to upgrade your electrically operated analog turnouts to DCC quickly and easily. To upgrade, simply replace your analog switch box with this decoder-equipped control box. Once connected, you can assign a decoder address and operate the turnout through your DCC system. Compatible with N, HO, On30, and O scales.

HO TRACKSIDE TURNOUT DECODER

Item No. 44950 • Suggested price: \$53.00

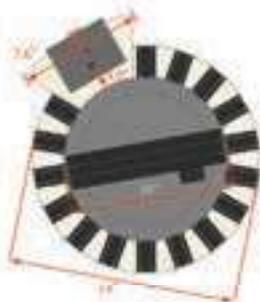

**DCC
ON BOARD**

This HO scale trackside turnout decoder lets you upgrade your electrically operated analog turnouts to DCC quickly and easily. With a decoder installed inside the trackside structure, this flexible design can be used in two ways; plug-and-play use with Bachmann's E-Z Track® system is available by snapping off break-away tabs at the bottom of the structure and plugging into the structure the appropriate wires from your track power source and turnout section. Alternatively, you can make the same connections by soldering to easily hide the wires through a hole under your layout. Once connected, you can assign a decoder address and operate the turnout through your DCC system.

DCC-EQUIPPED TURNTABLE

Item No. 46298 • Suggested price: \$351.00

**DCC
ON BOARD**

This DCC-equipped motorized turntable features:

- DCC-equipped with dual-mode NMRA-compliant decoder
- track powered from track position number 4 (separate power supply not required for DCC operation)
- 16 nickel silver track positions
- gear drive
- turntable indexed to each track section for accurate alignment
- painted maintenance building
- prototypical operator's cabin
- designed for use with Bachmann's E-Z Track®
- easily adaptable to other popular track systems
- spring-loaded direction switch and wires provided for DC (analog) operation, if desired

WORLD'S GREATEST HOBBY™ FIRST RAILROAD TRACK PACK

It's never been easier to get started in model railroading! Our World's Greatest Hobby™ First Railroad Track Pack contains all the track you need to build the 4' x 8' layout (shown below) featured in the included DVD, *Building Your First Model Railroad*. Hosted by actor and model railroad enthusiast Michael Gross, the easy-to-follow video will quickly get you on track for fun with the World's Greatest Hobby™!

45-piece World's Greatest Hobby™ Your First Railroad Track Pack Includes:

- World's Greatest Hobby Building Your First Model Railroad DVD, hosted by actor and model railroad enthusiast Michael Gross
- nine 9" straights
- one 9" terminal/retailer
- one 9" rerailer
- twenty 18" radius curves
- two 3" straights
- two remote turnouts - left
- two remote turnouts - right
- two Hayes bumpers
- four switch wires (green)
- one terminal wire (red)

**Bachmann HO scale
E-Z Track® features:**

- clear tie spacing
- low-profile spike heads
- modeled from AAR track engineering dimensions

E-Z TRACK® AND ACCESSORIES

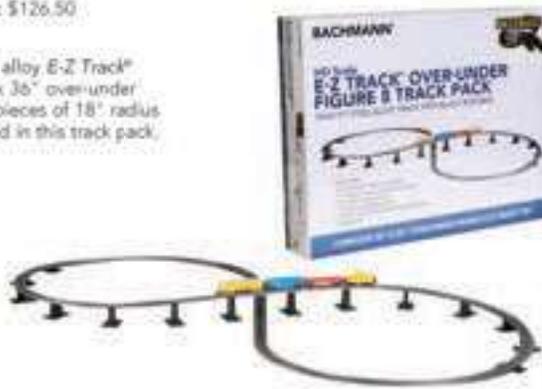

STEEL ALLOY E-Z TRACK® OVER-UNDER FIGURE 8 TRACK PACK

Item No. 44475 • Suggested price: \$126.50

Railroading fun gets bigger and better with our steel alloy E-Z Track® Over-Under Figure 8 Track Pack! Create a giant 78" x 36" over-under "Figure 8" with the 14-piece graduated pier set, 20 pieces of 18" radius curved and 4 pieces of 9" straight E-Z Track® included in this track pack.

Set contains:

- 19 pieces 18" radius curved track
- 1 piece 18" radius curved terminal rerailer
- 6 pieces 9" straight track
- 14-piece graduated pier set (3.125" vertical clearance under the tallest pier)
- power wire

STEEL ALLOY E-Z TRACK® FIGURE 8 TRACK PACK

Item No. 44487 • Suggested price: \$109.00

Includes all the steel alloy E-Z Track® you need to create a complete 76" x 39" Figure 8.

Set contains:

- 30 degree crossing track
- 21 pieces of 18" radius curved track
- 18" radius curved terminal rerailer

E-Z TRACK® LAYOUT EXPANDER SETS

With the E-Z Track® Expander Set, you can add to the track included with our train sets or create new configurations of turnouts, branchlines, and double-track mainlines on your existing railroad. Offered in steel alloy (with black roadbed) or nickel silver (with gray roadbed) versions.

STEEL ALLOY

Item No. 44494 • Suggested price: \$120.00

- 12 pieces of snap-fit E-Z Track®, including 4 pieces of 9" straight, 4 pieces 18" radius curved track, 1 manual turnout-left, 1 manual turnout-right, and 2 bumpers

NICKEL SILVER

Item No. 44594 • Suggested price: \$167.25

- 12 pieces of snap-fit E-Z Track®, including 4 pieces of 9" straight, 4 pieces 18" radius curved track, 1 remote turnout-left, 1 remote turnout-right, and 2 bumpers

(3.125" vertical clearance)
Item No. 44472 • Suggested price: \$34.75

18-PIECE GRADUATED PIER SET
(appropriate for higher HO elevations and On30 clearances;
3.875" vertical clearance under the tallest pier)
Item No. 44595 • Suggested price: \$55.00

E-Z® RAILER

Item No. 44492 • Suggested price: \$5.50

Lets you simply slide your HO and On30 trains onto the track.

E-Z® MODEL RAILROADS The E-Z Track® Planning Guide & Layout Book

Item No. 99978 • Suggested price: \$33.00

With E-Z® Model Railroads, beginning and advanced modelers can learn how to set up and run a railroad using Bechmann's snap-fit E-Z Track® system. From choosing a layout style to wiring and track planning techniques, readers are walked through virtually every step of the design and construction process.

- six in-depth layouts, plus 20 additional layout designs
- tips for beginning to advanced modelers, including weathering and scenery chapters
- 124 color pages

END OF TRAIN DEVICE with TRACK-POWERED FLASHING LED

Item No. 42907 • Suggested price: \$32.00

Replace one truck/coupler on your Bachmann freight car with this End of Train Device to finish the end of your freight train. Track powered; no wiring required. Operates on both DC and DCC layouts. This End of Train Device installs on the following HO Bachmann rolling stock with E-Z Mate® couplers and may also be compatible with some other popular brands: 50' Plug-Door Boxcar, 56' ACF Center-Flow Hopper, 50' Steel Reefer, 52' 6" Flatcar with 35' Piggyback Trailer, Evans All-Door Boxcar, 27' Ore Car, Canadian 4-Bay Cylindrical Grain Hopper, and 50' 6" ACF Outside Braced Sliding Door Boxcar. (See www.bachmanntrains.com for an updated list of compatible rolling stock.)

HO NARROW GAUGE

**HO SCALE NARROW GAUGE FLETCHER, JENNINGS & CO.
0-4-2ST TALYLLYN LOCOMOTIVE**

Runs on N Scale track; equipped with international-style hook-and-loop couplers

Suggested price: \$197.00 each

Opened in 1866, the 2'3" gauge Talylyn Railway was the first narrow gauge line in the UK to operate steam-powered locomotives from the start, with predecessors having their origins in the horse-drawn wagon era. Construction of the 0-4-2ST "Talylyn" locomotive preceded its namesake railway by two years, and the engine has spent its entire working life on the line. Initially designed for hauling slate, and later revenue passenger service, the Talylyn locomotive today hauls tourists along its 7.25-mile railway, now recognized as one of the UK's premier narrow gauge heritage lines. The Bachmann Talylyn locomotive comes available in four prototypical paint variations, reflecting the strikingly different schemes worn over the course of its life. Scaled to HO/OO dimensions, the Talylyn will operate on standard N Scale or HOn30/OO9 narrow gauge track, and features die-cast metal construction with operating metal drivers.

Features include:

- die-cast metal construction
- highly detailed painted body with precision graphics
- international-style hook-and-loop couplers
- blackened machined metal wheels with metal drivers

HO NARROW GAUGE

HO SCALE NARROW GAUGE HUGHES'S LOCOMOTIVE & TRAMWAY ENGINE WORKS 0-4-2ST SIR HAYDN LOCOMOTIVE

Runs on N Scale track; equipped with international-style hook-and-loop couplers

Suggested price: \$197.00 each

Built in 1878 for the Corris Railway in Wales, Sir Haydn was employed in passenger and goods service until the line's closure in 1948, operating as Corris No. 3 under both independent ownership and as part of the Great Western Railway. In 1951, No. 3 was purchased by the newly formed Talylyn Railway Preservation Society and was relocated to the nearby operation. It was here that the name "Sir Haydn" was given in recognition of the former owner of the Corris Railway. Today, Sir Haydn operates alongside the Talylyn locomotive in excursion service and occasionally returns as a visiting locomotive to the Corris Railway, which has since reopened as a heritage operation.

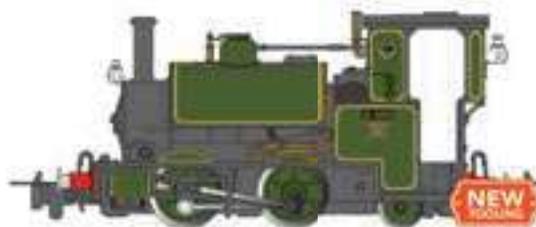

Features include:

- die-cast metal construction
- highly detailed painted body with precision graphics
- international-style hook-and-loop couplers
- blackened machined metal wheels with metal drivers

HO SCALE NARROW GAUGE TALLYLYN RAILWAY COACHES

Runs on N Scale track; equipped with international-style hook-and-loop couplers

Suggested price: \$51.75 each

Tallylyn carriages #1 and #2 were built by Brown, Marshalls & Co. of Birmingham, England, in 1866 and 1867. Both were constructed with an open interior and compartmentalized seating for each door. Carriage #4 was delivered in 1867 by the Lancaster Wagon Co. and featured a more cost-effective design than its predecessors. All three coaches remain in operation on the Tallylyn Railway today, and while none are officially named, Carriage #4 is known to railway staff as "Lulu."

HO SCALE NARROW GAUGE FFESTINIOW RAILWAY COAL WAGGON

Runs on N Scale track; equipped with international-style hook-and-loop couplers

Suggested price: \$39.00 each

Built in the late 1800s to carry a variety of loads, four-wheeled waggons such as these were predominantly used by the Ffestiniog Railway to haul locomotive coal for delivery. Today, they remain in pristine condition and are found on recreation-goods trains during special events. This model represents Ffestiniog Railway #22, which was renumbered #26 until regaining its original designation in 2024.

HO SCALE NARROW GAUGE FFESTINIOW RAILWAY GUNPOWDER WAGONS

Runs on N Scale track; equipped with international-style hook-and-loop couplers

Suggested price: \$39.00 each

Gunpowder wagons were private owner wagons designed to transport blasting powder from merchants to quarries along the Ffestiniog Railway and were also used in other railway settings around quarry sites. In their later years, surviving examples were repurposed to carry cement and locomotive sand for the railway. Several examples remain in preservation today, both on the Ffestiniog Railway and elsewhere in Wales.

STEAM LOCOMOTIVES

STREAMLINED K4 4-6-2 PACIFIC
(DCC ECONAMI™ SOUND VALUE EQUIPPED)
Performs best on 11.25" radius curves or greater.

Suggested price: \$527.00 each

Conceived by legendary Art-Deco designer Raymond Loewy, the Streamlined K4 was the Pennsylvania Railroad's answer to the stylish locomotive design trends of the 1940s. Rebuilt from four standard K4 locomotives for use on express passenger services such as the Jeffersonian and South Wind, the Streamlined K4s would eventually find their way onto all long-distance trains operated by the PRR. Our N Scale Streamlined K4 comes equipped with Econami™ Sound Value DCC featuring the Soundtraxx® steam package. Factory set for realism, the steam package offers a choice of 16 whistles, 6 bell types, 4 prototypical chuffs, 5 air pumps, and 5 dynamos, plus cylinder cocks, grade crossing quill, blowdown, brake squeal/release, coupling/uncoupling, water stop, and "all aboard" announcements with coach door operation effects - all in 16-bit polyphonic sound.

Features include:

- DCC sound-equipped with Econami™ Sound Value package
- precision motor
- operating headlight and reverse light
- directional Rule 17 lighting
- die-cast boiler and chassis
- blackened metal wheels and side rods
- separately applied details
- E-Z Mate® Mark II couplers

4-6-4 J-3a HUDSON STEAM LOCOMOTIVE (DCC ECONAMI™ SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater.

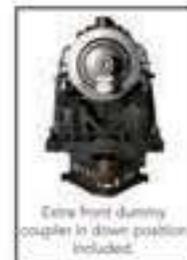

Suggested price: \$516.00 each

As the 1920s progressed, the need for faster, more powerful locomotives to pull the 20th Century Limited and other famous trains along the New York Central's Water Level Route from New York to Chicago became clear. The answer was delivered by the American Locomotive Company in 1927, as the 4-6-4 Hudson type entered service along its namesake Hudson River. The Hudson became an iconic symbol of both the New York Central and fast, luxury rail travel. Factory-set for maximum realism and equipped with an Econami™ SoundTraxx® steam package, the locomotive offers a choice of 16 whistles, multiple variations of 6 bell types, 4 prototypical chuffs, 5 air pumps and 4 dynamos, plus cylinder cocks, grade-crossing signal, blowdown, brake squeal/release, coupling/uncoupling, water stop, and "all-aboard" announcements with coach door operation—all in 16-bit polyphonic sound.

Additional features include:

- DCC sound-equipped with Econami™ Sound Value package
- dual-mode NMRA-compliant decoder
- precision motor
- authentic Boxpok-style drivers
- operating headlight and tender backup light
- completely hidden drive train
- gear drive
- separate detail parts, including bell, whistle, pop valves, and handrails
- die-cast chassis
- metal driver axle bearings
- E-Z Mate™ Mark II couplers, front and rear; extra front dummy coupler in down position included

BALDWIN 2-8-0 CONSOLIDATION LOCOMOTIVE (DCC ECONAMI™ SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$495.00 each

The 2-8-0 was created to haul heavy coal loads over the mountains of western Pennsylvania. It went on to become a popular heavy freight locomotive across the country and around the world. N scale modelers can enjoy the sounds of this workhorse with this DCC sound-equipped Consolidation. It comes equipped with the Econami™ SoundTraxx™ steam package. Factory set for Baldwin 2-8-0 realism, the steam package also offers a choice of 16 whistles, multiple variations of 6 bell types, 4 prototypical chuffs, 5 airpumps, and 4 dynamos plus cylinder cocks, grade crossing signal, blowdown, brake squeal/release, coupling/uncoupling, water stop, and "All aboard"/coach doors—all in 16-bit polyphonic sound. Die-cast construction.

Features include:

- DCC sound-equipped with Econami™ Sound Value package
- precision motor
- operating headlight
- completely hidden drive train
- separate sanding lines

- separate detail parts, including bell, whistle, pop valves, and handrails
- builder's plate

STEAM LOCOMOTIVES

**19TH CENTURY 4-6-0
(SOUNDTRAXX® ECONAMI™ DCC SOUND VALUE EQUIPPED)**

Suggested price: \$439.00 each

The first steam locomotive to operate in North America with the 4-6-0 wheel arrangement entered service with the Philadelphia and Reading in 1847. More railroads would come to adopt the wheel arrangement in the following decades, finding greater tractive effort in the 4-6-0 than in the 4-4-0 predecessor. The Bachmann 19th Century 4-6-0 replicates these ornate early examples, coming equipped with Soundtraxx® Tsunami2™ DCC Sound on board.

Features include:

- Soundtraxx® Tsunami2™ DCC equipped for sound, speed, direction, and lighting control
- Dual-mode NMRA-compliant decoder for use on digital (DCC) or analog (DC) systems
- LED headlight with era-appropriate warm glow
- Die-cast chassis
- Wood or coal tender load per prototype
- Metal side rods
- Magnetically operated E-Z Mate® Mark II couplers

ELECTRIC LOCOMOTIVES

GG-1 ELECTRIC (DCC SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$399.00 each

Built in Altoona, Pennsylvania, between 1939 and 1943, the GG1 electric was the Pennsylvania Railroad's premier locomotive for fast passenger service on the Northeast Corridor between Washington, D.C., and New York City. Sporting a stylish carbody designed by renowned Art Deco-era artist Raymond Loewy, the GG1 was the epitome of modern, fast passenger railroading for over 30 years, and is still recognized as an icon of mid-20th-century design today.

Features include:

- Authentic Pennsylvania Railroad design
- Die-cast frame
- 12-wheel drive
- Posible metal pantographs
- Separately applied ladders, horns, insulators, and metal uncoupling levers
- Soft white LED directional headlights
- Magnetically operated E-Z Mate™ Mark II couplers

DIESEL LOCOMOTIVES

SIEMENS ALC-42 DIESEL LOCOMOTIVE (TCS WOWSOUND® DCC EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$516.00 each

The future of long-distance passenger railroading is heading to N Scale. Based on the highly successful medium-distance SC-44 Charger, the ALC-42 displays a range of new features for cross-country service on America's most scenic and storied routes, including a unique nose design and cab door configuration. Bachmann's ALC-42 Charger has been developed in collaboration with Siemens Mobility, using original design documentation and prototype field recordings for maximum realism. Features include a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist® for easy configuration without CVs, and a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive package includes an authentic horn, bell, prime mover, startup/shutdown, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade crossing quill, station announcements, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- dual-mode NMRA-compliant decoder
- directional headlights and marker lights
- interior corridor work lights

- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality
- steady/alternate flashing ditch lights
- die-cast frame with separately applied windshield wipers, grab irons and detail parts
- E-Z'Mate® Mark II couplers

SIEMENS SCV-42 CHARGER
(TCS DCC WOWSOUND® EQUIPPED)

Suggested price: \$516.00 each

The latest in passenger railroading has arrived at VIA Rail Canada™ with the Siemens SCV-42 Charger. Designed to handle harsh Canadian winters while maintaining efficiency for fast corridor service, the SCV-42 is the new face of passenger transportation between major cities in eastern Canada including Windsor, Toronto, Montreal, and Quebec City. Features include a TCS-WOWSound® decoder with Audio Assist® for easy configuration without CVs, and a Keep Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive package includes an authentic horn, bell, prime mover, startup/shutdown, Canadian station announcements, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade crossing quill, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy setup of almost all decoder functionality
- dual-mode NMRA-compliant decoder for use on analog (DC) or digital (DCC) systems
- LED directional headlights and marker lights
- interior corridor work lights
- steady/alternate flashing ditch lights
- prototypical English/French passenger announcements
- die-cast frame with separately applied windshield wipers, grab irons, and detail parts
- E-Z Mate® Mark II couplers

DIESEL LOCOMOTIVES

**EMD SD40-2
(DCC ECONAMI™ SOUND VALUE EQUIPPED)**
Performs best on 11.25' radius curves or greater.

Suggested price: \$295.00 each

Constructed from 1972 to 1989, the SD40-2 was by far the most successful of EMD's "Dash 2" series of road switchers. More than 4000 were produced, mostly for use within North America, although they have also seen use in Australia, South America, and elsewhere internationally. Their ability to handle both road freight and local switching operations ensures that they remain an essential locomotive for most major freight railroads to this day. The Bachmann SD40-2 returns to our N scale line with all-new tooling, DCC Econami™ Sound Value On Board, and a range of authentic paint schemes for the modern era.

Features include:

- DCC sound-equipped with Econami™ Sound Value package
- dual-mode NMRA-compliant decoder
- directional headlights with Rule 17 dimming
- precision motor
- flywheel
- die-cast frame
- separately applied detail parts
- E-Z Mate® Mark II couplers

**GP40 DIESEL LOCOMOTIVE
(DCC ECONAMI SOUND VALUE-EQUIPPED)**
Performs best on 11.25" radius curves or greater
Suggested price: \$329.00 each

The GP40 was considered the top of EMD's four-axle line when first offered in the 1960s. It was visually distinguished from earlier GPs by three radiator fans along its long hood. Bachmann's N scale Sound Value model is SoundTraxx® Econami™ equipped. Factory-set for GP40 realism, the diesel package offers a choice of 5 prime movers, 16 airhorns, multiple variations of 7 bell types, 2 air compressors, and 3 couplers plus a function-activated grade-crossing signal—all in 16-bit polyphonic sound. Econami™ includes adjustable auto-notching sensitivity for prototypical operation, adjustable master volume, individual sound effect volume levels, advanced consist, and more.

Features include:

- DCC sound-equipped with Econami™ Sound Value package
- dual-mode NMRA-compliant decoder
- directional headlights with Rule 17 dimming
- precision motor
- flywheel
- die-cast frame
- fine-scale handrails
- illuminated number boards

GE 44-TON SWITCHER (DCC EQUIPPED)

Suggested price: \$199.00 each

Built between 1940 and 1956, the General Electric 44-Ton Switcher was designed to replace steam locomotives in light freight duties, primarily finding use as yard switchers for class one railroads and industrial complexes. Among only a handful of locomotives permitted to operate with a single-person crew under common carrier regulations, the 44-Ton was also an appealing choice for shortlines. The reliability of the type ensured their longevity, and some can still be found in operation today, both on tourist railroads and in revenue service. The Bachmann N Scale 44-Ton Switcher returns with new road numbers and paint schemes never before offered in this scale.

Features include:

- Dual-mode NMRRA-compliant decoder for DCC and analog operation
- LED directional headlights with Rule 17 dimming
- Precision motor
- Die-cast chassis
- Separately applied handrails and single chime horn
- Magnetically operated E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

OLD-TIME PASSENGER CARS

Suggested price: \$39.00 each

In the late 1800s, railroads were spreading fast across North America. Trips that took days by stagecoach could now be completed in a few hours with far more relative comfort. Coach Cars were designed exclusively for passengers, while Baggage Cars were configured for transporting goods and mail. Other cars known as "Combines" were built to transport both passengers and cargo.

Features include:

- 19th-century design
- Separately applied end platform handrails and truss rods underneath the car
- Magnetically operated body-mounted E-Z Mate® Mark II couplers
- Backened metal wheels with RP25 contours

STOCK CAR

Suggested price: \$47.00 each

Stock Cars, also referred to as Cattle Cars, are a type of rolling stock used to transport livestock and larger animals between farms and other destinations. They were a common sight on railroads across North America from the late 1800s right up until the mid-1950s when trucking became more economical. The Bachmann Stock Car rekindles the heyday of these fascinating railcars with a selection of attractive and authentic paint schemes.

CHEMICAL TANK CAR

Suggested price: \$48.00 each

In addition to carrying essential liquids such as water, oil, and gasoline, tank cars also provide a safe and efficient means of transportation for hauling industrial chemicals. Due to the potentially volatile and sometimes corrosive nature of certain chemicals, these tank cars were designed to feature tougher construction and a specialized dome to provide greater protection for both the contents of the cars and those handling them. The Bachmann Chemical Tank Car incorporates new and existing tooling to replicate these cars in N Scale and includes different dome styles per prototype, authentic paint schemes, E-Z Mate® Mark II couplers, and blackened, machined metal wheels.

Features include:

- new and exciting tooling
- highly detailed painted bodies with precision graphics
- small or large dome style per prototype
- magnetically operated E-Z Mate® Mark II couplers
- blackened machined metal wheels with RP25 contours

55' STEEL COIL CAR with COIL LOAD

Suggested price: \$65.00 each

Steel Coil Cars are specialized freight cars designed to carry rolls of sheet metal for industrial use. Early examples debuted in the 1960s, and today the cars are a common sight on freight trains across North America. These new additions to our N Scale line feature a newly tooled chassis, two prototypical hood styles replicating both early and more recent designs, and a load of six removable "steel" coils that can be placed in the prototypical cradles within the cars.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- two prototypical styles of removable hoods
- load of six removable coils
- magnetically operated E-Z Mate® Mark II couplers
- blackened machined metal wheels with RP25 contours

250-TON CRANE & BOOM TENDER

Suggested price: \$89.00 each

Critical to the maintenance departments of most major 20th century railroads, steam-powered Crane Cars and Boom Tenders provided the means to lift and maneuver heavy equipment, from track and bridge sections to railcars being recovered from a derailment. Returning to our N Scale line with new paint schemes and road numbers, Bachmann's Crane and Boom Tender feature a fully assembled 250-ton steam crane & separate car with boom tender. The crane can swivel 360 degrees for complete prototypical action and be raised and lowered to suit your scene.

Crane car features:

- Detailed painted chassis, cab, and boom arm with precision graphics
- Crane swivels 360 degrees
- Removable knob adjusts the boom position and raises/lowers the hook
- Detailed underframe
- Magnetically operated body-mounted E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

Boom Tender features:

- Lowered body height for improved appearance
- Separately applied brake wheel, chimney, and railroad tie load
- Detailed underframe with separately applied truss rods
- Magnetically operated body-mounted E-Z Mate® Mark II couplers
- Blackened metal wheels with RP25 contours

NICKEL SILVER E-Z TRACK® EXPANDER SET

Item No. 44893 • Suggested price: \$183.75

With the E-Z Track® Expander Set, you can add to the track included with our train sets or create new configurations of turnouts, branchlines, and double-track mainlines on your existing railroad. E-Z Track® lets you enjoy quick assembly on floors, tables, and carpets without the need for special tools or fasteners.

Set contains:

- 4 pieces 11.25" radius curved track
- 4 pieces 5" straight track
- 1 remote turnout-left
- 1 remote turnout-right
- 2 Hayes bumpers
- power wire

NICKEL SILVER E-Z TRACK® FIGURE 8 TRACK PACK

Item No. 44878 • Suggested price: \$112.25

Includes all the E-Z Track® you need to create a complete 54" x 23.5" Figure 8.

Set contains:

- 17 pieces 11.25" radius curved track
- 1 piece 11.25" radius curved terminal rerailer
- 4 pieces 10" straight track
- 90 degree crossing
- power wire

NICKEL SILVER E-Z TRACK® OVER-UNDER FIGURE 8 TRACK PACK

Item No. 44877 • Suggested price: \$112.25

Take your N scale layout to new heights with the E-Z Track® Over-Under Figure 8 Track Pack! This pack includes all you need to create 47.25" x 22.5" over-under "figure 8" with its 16-piece graduated pier set, 20 pieces of 11.25" radius curved, and two pieces of 10" straight E-Z Track®.

Set contains:

- 19 pieces 11.25" radius curved track
- 1 piece 11.25" radius curved terminal rerailer
- 2 pieces 10" straight track
- 16-piece graduated pier set (1.875" vertical clearance under the tallest pier)
- power wire

NICKEL SILVER WORLD'S GREATEST HOBBY™ FIRST RAILROAD TRACK PACK

Item No. 44896 • Suggested price: \$329.00

It's never been easier to get started in model railroading! Our World's Greatest Hobby™ First Railroad Track Pack contains all the track you need to build a 56' x 28" N scale track layout (shown at right). Also included is a copy of the DVD, *Building Your First Model Railroad*. Hosted by actor and model railroad enthusiast Michael Gross, this video features the construction of an HO scale model railroad with hints and tips that apply to every scale. Get on track for fun with the World's Greatest Hobby™!

This 47-piece First Railroad Track Pack includes:

- Building Your First Model Railroad DVD, hosted by actor and model railroad enthusiast Michael Gross. (This video features the construction of an HO model railroad with hints and tips that apply to every scale.)
- twenty 11.25" radius curves
- nine 5" straights
- one 10" straight terminal trailer
- four turnout controllers
- two Hayes bumpers
- two remote turnouts – left
- two remote turnouts – right
- four switch extension wires
- one red 10" extension wire
- two red power connection wires

NICKEL SILVER E-Z TRACK® AUTO-REVERSING SYSTEM

Item No. 44847 • Suggested price: \$229.00

Featuring our electronic auto-reversing E-Z Track®, this track set is the perfect solution for point-to-point passenger and freight transit on your layout. With a variable speed controller, you can determine the rate of travel and bring your town or city to life! Add-on track sections are also available separately (Item Nos. 44848 & 44849).

The Nickel Silver E-Z Track® Auto-Reversing Track System includes:

- 4 pieces of 5" straight auto-reversing E-Z Track®
- 4 pieces of 11.25" radius curved auto-reversing E-Z Track®
- 2 pieces of 5" straight E-Z Track®
- 2 Hayes bumpers
- power pack and variable speed controller
- illustrated instructions

ELECTRONIC AUTO-REVERSING NICKEL SILVER E-Z TRACK®

You can expand your point-to-point rail system with Electronic Auto-Reversing Nickel Silver E-Z Track®. Available in 5" straight sections and 11.25" radius curved sections, this electronically equipped track is specifically designed for the open-end track configuration of our auto-reversing track system, allowing you to go virtually anywhere in your layout.

ROUNDHOUSE

Item No. 46701 • Suggested price: \$229.00 each

Developed in the steam era as an efficient means for storing and maintaining locomotives, roundhouses continue to be used today in both steam preservation and, in some cases, to house modern diesel locomotives. No matter which era you model, a roundhouse is the perfect setting to show off the locomotive roster on your railroad. Bachmann is pleased to introduce the Roundhouse to our N Scale accessory line, designed to work seamlessly with our Motorized Turntable (item no. 46799).

(HO model shown for illustrative purposes)

MOTORIZED TURNTABLE

Item No. 46799 • Suggested price: \$199.00

This DCC-ready N scale motorized turntable includes 12 indexed track positions, slow-speed gear drive, and direction control switch for easy operation on your railroad.

Features:

- 12 nickel silver track positions
- DCC-ready with 8-pin dummy plug
- slow-speed gear drive
- spring-loaded direction switch
- turntable indexed to each track section for accurate alignment
- painted maintenance building
- prototypical operator's cabin
- designed for use with Bachmann's E-Z Track®
- easily adaptable to other popular track systems

(Locomotive not included)

ELECTRIC TRAIN SETS

East Broad Top - The Rockhill Limited **NEW**

an E-Z Track® set with E-Z Mate® couplers

Item No. 25026 • Suggested price: \$549.00

Commencing operations in 1872 to transport coal from the rich mountain deposits of central Pennsylvania, the East Broad Top Railroad also played an important role as a common carrier for passengers and carload freight. Following closure in 1956, the railroad was reopened as a tourist passenger operation which lasted until 2011 when the rails fell silent once again. In 2021, the railroad returned to service for a second time, with steam returning in 2023. Today, the line operates as the oldest and most complete surviving narrow gauge railroad east of the Mississippi. The Rockhill Limited pays tribute to both the history of the line and its role as a tourist railroad, featuring a 2-6-0 steam locomotive with operating headlight, a combine car and coach car in the railroad's current scheme, a 56" x 38" oval of snap-fit nickel silver E-Z Track®, and a power pack, speed controller, and illustrated instruction manual.

SPECTRUM®

East Broad Top - Freight

an E-Z Track® set with E-Z Mate® couplers

Item No. 25025 • Suggested price: \$549.00

Celebrating the East Broad Top Railroad's historic return to steam in 2023, the East Broad Top - Freight set is inspired by both the revenue-service mixed freights operated until the closure of the railroad as a common carrier in the 1950s, and the recreation freights and photographer specials put on by the EBT Foundation on the reopened line today. The set features freight rolling stock based on cars original to the railroad that can still be found in the preserved collection, arriving complete with a 2-6-0 steam locomotive with operating headlight and tender with coal load, tank car, two-bay steel hopper, and caboose. Also included is a 56" x 38" oval of snap-fit E-Z Track®, magnetically operated E-Z Mate® couplers on all cars, power pack and speed controller, and an illustrated instruction manual.

3-BAY HOPPER with REMOVABLE LOAD

Suggested price: \$93.00 each.

Designed and manufactured by the East Broad Top Railroad in their Orbisonia shops, the 3-Bay Hopper was built to enable the railroad to efficiently haul more tonnage of coal than was possible in their existing 2-Bay Hoppers. Today, many examples remain on the East Broad Top, seeing use on demonstration freights or maintenance trains, while a large number have found a second life further afield. From Colorado to Alaska, and even as far as Hawaii, the EBT 3-Bay Hopper can be found primarily in ballast service, helping to restore and maintain the right of way on numerous historic narrow gauge lines.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- separately applied details
- magnetically operated E-Z Mate® Mark II couplers
- blackened machined metal wheels with RP25 contours

Thomas with Annie & Clarabel (featuring digital sound)

NEW

with international-style hook-and-loop couplers

Item No. 90089 • Suggested price: \$659.00

Thomas and his loyal coaches Annie and Clarabel are carrying a number of very important passengers, and you're invited to join in their travel fun! A great way to begin your Large Scale Thomas and Friends™ collection, this ready-to-run electric train set with sound comes complete with Thomas the Tank Engine™ (with analog or DCC digital sound control* and moving eyes), Annie coach, Clarabel coach, 5'4" x 4'3" oval of track (14 pieces), wall pack and analog speed controller, and illustrated instruction manual.

Features include:

- Thomas the Tank Engine™ (with digital sound* and moving eyes)
- DCC sound-equipped
- 16-bit sound processor
- automatic dual-mode decoder for analog (DC) and DCC operation
- whistle, chuff, and cylinder blow down
- DCC and/or manual volume control with on/off switch
- DC-mode polarity switch for operation according to NMRA or Large Scale model railroading practices
- Annie coach with international-style hook-and-loop couplers
- Clarabel coach with international-style hook-and-loop couplers
- 5'4" x 4'3" oval of track (14 pieces)
- wall pack and analog speed controller*
- illustrated instruction manual

THOMAS & FRIENDS™ ACCESSORIES

LARGE SCALE THOMAS & FRIENDS™ DCC SOUND MODULE

Item No. 44958 • Suggested price: \$189.00

Bring the sounds of Sodor to life with this separate-sale Sound Module for installation in your Large Scale Thomas & Friends™ engines! Solder pad installation and customer-supplied speaker required. 16-bit sound processor. Automatic dual-mode decoder for DCC/DC operation. Sound package includes whistle or bell per prototype, chuff, and cylinder blow down. Also controls customer-installed headlamps, if desired. Character sound suites available through DCC CV selection only. Character sound suites include Thomas, Percy, James, Edward, Henry, Gordon, Emily, Spencer, and Toby. Factory pre-set for Thomas. Approximate board dimensions: 60mm x 30mm x 15mm. Designed for Large Scale use only.

* An analog controller is included with this set for standard DC operation with sound. Bachmann E-Z Command[®] Plus or other NMRRA-compliant digital control system required for DCC operation.

ELECTRIC TRAIN SETS

Li'l Big Top

Item No. 90194 • Suggested price: \$325.00

Ladies and gentlemen and children of all ages will enjoy BIG circus fun with the Li'l Big Top! Featuring vintage Ringling Bros. and Barnum & Bailey graphics, the Li'l Big Top ready-to-run train set comes complete with an 0-4-0 steam locomotive with operating headlight and coal tender, colorful gondola and caboose circus cars, hook-and-loop couplers on locomotive and cars, 4'3" circle of steel alloy track (12 pieces), power pack and speed controller, and illustrated instruction manual.

The Night Before Christmas®

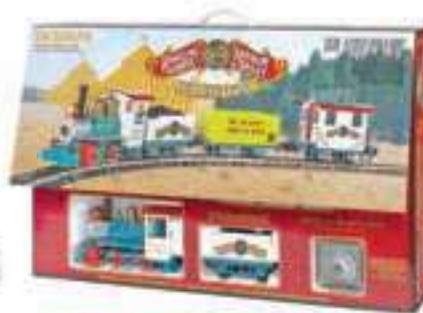

Item No. 90037 • Suggested price: \$729.00

There is perhaps no other gift more fun to find under the Christmas tree than a brand new train. Delivering its promise of magic and delight is The Night Before Christmas® train set. The Night Before Christmas® comes complete with a 4-6-0 steam locomotive (with operating headlight, smoke, and speed-synchronized chuff sound), tender with coal load, gondola, bobber caboose, and Santa figure. Also included are a 5'4" x 4'3" oval of track (14 pieces), power pack and speed controller, and illustrated "Bach Man" instruction manual.

Note: Sound system requires one 9V battery for operation. Battery is not included.

ELECTRIC TRAIN SETS & STEAM LOCOMOTIVES

Cowcatcher

Item No. 90040 • Suggested price: \$729.00

Whether they have two legs or four, a smooth ride is important to any rail passenger. The Cowcatcher ensures your livestock travels in comfort and style. Watch as four cow heads peek back and forth through stock car windows as the train navigates the track. This set comes complete with a Baldwin 4-6-0 steam locomotive (with operating headlight, smoke, and speed-synchronized chuff sound), tender with coal load, animated stock car with cattle, and bobber caboose. Also included is a 5'4" x 4'3" oval of track (14 pieces), power pack with speed controller, and an illustrated "Bach Man" instruction manual.

Note: Sound system requires one 9V battery for operation. Battery is not included.

4-6-0 STEAM LOCOMOTIVE with METAL GEARS (DCC and Sound Ready)

Performs best on 4" diameter curves or greater.

Suggested price: \$1200.00 each

Bachmann's classic 4-6-0 steam locomotive has returned to the Big Haulers® line. Featuring a completely retooled tender body with more prototypical details along with metal gears and a durable Pittman® motor, the new ten-wheeler has more pulling power for your Large Scale layout.

Features include:

- powerful and durable Pittman® motor
- completely retooled tender body with more prototypical details and coal load
- advanced nonproprietary plug-and-play circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation
- factory-installed speaker for easy installation of aftermarket sound systems
- metal gears
- die-cast lead truck
- metal detail parts including handrails, piping, siderods, and wheels
- separately applied domes and smokestacks
- finescale backhead detail
- LED headlight and back-up light
- smoke unit

SPECTRUM®

Features include:

- advanced nonproprietary plug-and-play electronic printed circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation
 - powerful precision-balanced can motor connected to an all-metal gearbox and gears with appropriate gear reduction for a six-wheel drive system with superior performance at realistic speeds
 - fully operating Stephenson valve gear with operating piston valves, crosshead pumps with piping (per prototype), Johnson bar, and linkage
 - fully equalized locomotive suspension system to provide super-smooth operation on uneven track
 - electrical pickup from all drive wheels and both tender trucks
 - two optical sensors, one in each cylinder, give you the option of adjusting the timing and count of steam chuffs
 - factory-installed speaker with wire pigtail to allow easy installation of optional aftermarket sound
 - two switches behind the smoke box door allow you to choose whether the headlight/firebox flicker and smoke generator are turned off or controlled by the device in the nonproprietary plug-and-play socket
 - easy access to switches in the tender for motor power on/off and choice of track pickup or battery power operation according to NMRA or Large Scale railroading practices
 - realistic coal or wood load in the tender per prototype
 - strap or wood pilot per prototype
 - option for either body-mounted or truck-mounted coupler height
 - metal frame, drivers, hangers, driver leaf springs, siderods, piston rods, valve guides, guide rods, handrails, and piping
 - brass-plated metal whistle
 - machined brass pop valves and bell with metal clapper

DIESEL LOCOMOTIVES

GE DASH 9 DIESEL LOCOMOTIVE (1:29 SCALE)

Performs best on 10" diameter curves or greater.

Suggested price: \$1700.00 each

The Dash 9 locomotive, keeping in line with additional locomotives produced under a "dash" name, was given its memorable moniker by General Electric upon its release in 1993. Simple and reliable, the model proved immensely popular, with over 2,500 in operation in the United States at its peak. Today, there's a good chance any Class I freight train you encounter will be led by a Dash 9. This locomotive enters Bachmann's Big Haulers® lineup featuring an advanced nonproprietary plug-and-play electronic printed circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation.

Additional features include:

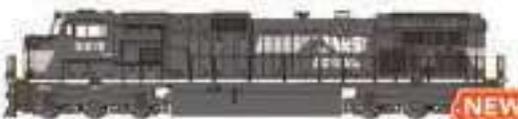

- advanced nonproprietary plug-and-play electronic printed circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation
- 1:29 scale, 45mm gauge
- two three-axle ball-bearing power trucks
- two motors per truck with low amperage draw
- all-wheel pickup and all-wheel drive
- operating diesel smoke unit
- white LED directional headlights, front and rear
- lighted front ditch lights
- lighted front number boards
- interior cab lighting and interior cab details
- lighted porch, walkway and step safety lights
- solid-metal railings and lift rings
- opening side windows
- engineer figure installed inside cab
- windshield wipers, see-through steps, and MU hose detailing
- brass bell and brass Nathan K5LLA horn
- operating AAR knuckle couplers
- extra weight for better performance
- factory-installed speaker with wire pigtail to allow easy installation of optional aftermarket sound
- power cables on each end to allow for battery operation or RC control from trailing car
- prototype-specific cab profiles
- detailed, authentic paint schemes
- length: 32"

DIESEL LOCOMOTIVES

EMD GP40 (1:29 SCALE)

Performs best on 5' diameter curves or greater.

Suggested price: \$1500.00 each

The GP40 is one of EMD's most successful 4-axle road switchers. Initially entering service in 1971, production lasted through 1986 when, after construction of almost 3000 units, the final GP40-2 was rolled off the production line. Today, the GP40 series continues to remain crucial to the switching and branch line needs of class one railroads, in addition to short lines and industrial operators. The Bachmann Large Scale GP40 arrives in 1:29 scale with realistic detail, a non-proprietary plug-and-play circuit board for the control system of your choice, and four authentic modern-era paint schemes.

Features include:

- advanced non-proprietary plug-and-play circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation
- one motor per truck with low amperage draw
- operating diesel smoke unit
- white LED directional headlights, front and rear
- lighted front number boards
- interior cab lighting and interior cab details
- solid-metal railings and lift rings
- opening side windows
- windshield wipers, see-through steps, and MU hose detailing

MOTIVE POWER

CLOSED STREETCAR with METAL GEARS

Suggested price: \$425.00 each

The Bachmann Closed Streetcar returns to our Big Haulers® line with new metal gears for smooth and long-lasting operation. Based on streetcars typically found in North American cities between the late 1800s and early 1900s, the Closed Streetcar features operating headlights, a fully furnished and lighted interior with seats and hanging straps for standing passengers, poseable doors, and a non-functional positionable metal trolley pole.

Features include:

- classic period design
- highly detailed painted body with precision graphics
- fully furnished, lighted interior with opening doors, seating, and hanging straps
- directional headlights
- separately applied details including control stands and end-platform gates

**TWO-BAY OFFSET HOPPER with REMOVABLE COAL LOAD
(1:29 SCALE)**

Suggested price: \$215.00 each

Designed by the American Association of Railroads as a standardized open hopper for transporting coal, the Two-Bay Offset Hopper could haul considerably larger loads than its predecessors. First appearing in the mid-1930s, these cars and future derivatives of the design would continue to operate in various capacities ranging from their original purpose of handling coal to hauling ore, ballast, and maintenance loads through the 1970s. Many examples of this popular design remain in existence to this day at museums and excursion railroads. The Bachmann Two-Bay Offset Hopper is scaled to standard gauge dimensions for operation alongside other models in our 1:29 Scale rolling stock line and features compatible AAR knuckle couplers.

Features include:

- Removable coal load
- Separately applied brake wheel
- Era-appropriate trucks
- AAR knuckle couplers
- Blackened metal wheels

SINGLE-DOME TANK CAR (1:29 SCALE)

Suggested price: \$245.00 each

Designed to haul a wide variety of liquid loads, tank cars have been a crucial element of freight railroading since the pioneer era, hauling water, oil, gasoline, and other commodities that were invaluable for shaping the nation and the continent. The tank cars featured in this release represent some of the last single-dome examples built with a riveted tank design, delivered between the late 1920s and early 1940s. Found across North America, the Bachmann Big Haulers® 1:29 Scale Single-Dome Tank Car represents these cars in their heyday, when they served a wide variety of owners with colorful paint schemes.

Features include:

- 1:29 Scale standard gauge dimensions
- highly detailed painted bodies with precision graphics
- separately applied details
- metal wheels
- opening hatch doors

STEEL ALLOY TRACK AND ACCESSORIES

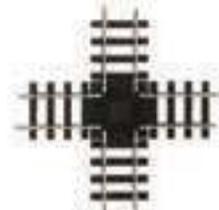

STEEL ALLOY TRACK (for indoor use only)

MANUAL TURNOUT - LEFT
Item No. 94351
Suggested price: \$75.00

MANUAL TURNOUT - RIGHT
Item No. 94352
Suggested price: \$75.00

90 DEGREE CROSSING
Item No. 94358 • Suggested price: \$79.00

To build a "figure 8" using the 90 degree crossing shown above, the following track sections are required:
4 straight sections - Item No. 94511
and 18 curved sections - Item No. 94501

TRACK BY THE BOX

Suggested price:

- Item No. 94501 **4' DIAMETER CURVE** (4 pieces per box) \$52.00
- Item No. 94511 **1' STRAIGHT** (4 pieces per box) \$52.00

TRACK BY THE CARTON

Suggested price:

- Item No. 94501 **4' DIAMETER CURVE** (50 pieces per carton) \$425.00
- Item No. 94511 **1' STRAIGHT** (50 pieces per carton) \$425.00

OPTICAL AUTO-REVERSING SYSTEM

Item No. 96222 • Suggested price: \$155.00

The Bachmann Large Scale Optical Auto-Reversing System brings automatic point-to-point operation to your railroad. Set up your system, add your motive power, and watch as it operates back and forth at your specified speed and stopping intervals between two destinations up to 20' apart. Designed for indoor use only. Compatible with all metal 45mm track types and all Large Scale trains from Bachmann and other manufacturers.

**LARGE SCALE E-Z RIDERS®
with BALL-BEARING ROLLERS**
(full electrical pick-up; 4 per pack)

Item No. 92423 • Suggested price: \$99.00

1:29 END OF TRAIN DEVICE with TRACK-POWERED FLASHING LED

Item No. 92428 • Suggested price: \$105.00

Add prototypical modern-day end-of-train protection to your 1:29 scale rolling stock with roller bearing trucks. One truck included in package. Works on track power or CR 2032 battery (not included).

SCENESCAPES® TUFTED GRASS MAT (one 11.75" x 7.5" sheet)

Suggested price: \$35.00 each

Super detail your layout in any scale with a wild grass landscape. These ready-to-use Tufted Grass Mats start with a lush covering of 5mm static grass on a flexible foam base. Depending on the mat style, various layers of foliage, turf mounds, leaves, and grass tufts are added for an incredibly lifelike appearance. Use whole for large areas or cut into patches to create random areas of groundcover. Simply apply with white glue or spray adhesive to your base platform or wherever you want grass to grow.

TREES

SCENE
SCAPES

SCENESCAPES® TREES

Bring your urban or countryside railroad to life with realistic SceneScapes® trees by Bachmann. Create your own grove or blanket a hillside in dense forest with deciduous and coniferous trees offered in a variety of sizes. Though suitable for all scales, the most common size/scale association is denoted in parentheses after each description (N, HO, or O). Please note the number of trees per box may vary from the photos as shown. The number of trees contained in each box is also indicated in parentheses.

- for use with all train layouts
- realistic colors
- size assortment for added realism

HO SCALE PLASTICVILLE® U.S.A. 75TH ANNIVERSARY COMMEMORATIVE KITS

2022 marked 75 years since Bachmann paved the way in providing injection molded plastic scenery items for model railroaders with Plasticville® U.S.A. buildings and kits. From stores and homes to farms and railroad structures, the no-stress, easy-to-assemble designs have endured in popularity, and our line continues to incorporate many of the same nostalgic items that your parents or grandparents may have assembled. In celebration of 75 years, we're releasing a limited line of some of our most popular items based on their appearance in original product illustrations, complete with collectible 75th-anniversary packaging.

SCALE

O SCALE PLASTICVILLE® U.S.A. KITS

O SCALE
PLASTICVILLE® U.S.A. KITS

Since 1947, hobbyists and collectors have made Plasticville® U.S.A. products their structures of choice. Plasticville® pieces add character and dimension to your O scale layout. Many buildings and accessories have been added to the Plasticville® line throughout its history, and many are still produced from their original molds. As a fun challenge to collectors, you can collect hundreds of product, color, and packaging variations that have occurred over the years (you can even join the independent Plasticville Collectors Association at plasticvilleusa.org). Whether you're new in town or an established civic leader, Bachmann builds Plasticville® U.S.A. for you. City growth is limited only by your imagination!

E-Z COMMAND® DCC SYSTEM

E-Z COMMAND® PLUS DCC CONTROLLER

Item No. 44933 • Suggested price: \$290.00

Bachmann Trains is pleased to offer the next generation of the E-Z Command® DCC control system; E-Z Command® Plus. With E-Z Command®, digital control of speed, lighting, sound, and direction of multiple locomotives is at your fingertips, as well as remote control of Bachmann E-Z Command® DCC-equipped turnouts. E-Z Command® simplifies the programming process for locomotives with one-button, on-track programming and now features the ability to control up to 29 decoder functions per locomotive. Additional features of the E-Z Command® Plus system include 128-speed steps for smooth operation and plug-in wiring for simple setup, single-locomotive emergency stop in addition to full-track emergency stop, an LED lighted speed indicator, and new LED push-button controls. E-Z Command® will operate all DCC-equipped Bachmann locomotives as well as NMRA-compliant DCC locomotives from other manufacturers.

Features include:

- digital control of multiple locomotives in N, HO, and On30 Scale (E-Z Command® 5 Amp Power Booster, Item No. 44910, required for O Scale and Large Scale operation)
- digitally control speed, direction, lighting, and sound
- on-track programming
- 128 speed-step locomotive control
- LED speed indicator display
- both individual locomotive and full-track emergency stop buttons
- up to 29 control functions
- Bachmann E-Z Command® DCC-equipped turnout control
- wall pack power supply
- plug-in wiring

E-Z COMMAND® 5 AMP POWER BOOSTER

Item No. 44910 • Suggested price: \$525.00

The E-Z Command® 5 Amp Power Booster provides extra current to the track for an increased number of DCC locomotives on your HO, N, O, or Large Scale layout. Compatible with any NMRA-compliant DCC system.

E-Z COMMAND® AUTOMATIC REVERSE LOOP MODULE

Item No. 44912 • Suggested price: \$115.00

This E-Z Command® accessory eliminates the complicated wiring previously needed to operate analog reverse-loop track layouts.

- module senses train as it moves along the loop, automatically switching polarity to allow reverse loop travel
- DCC use only

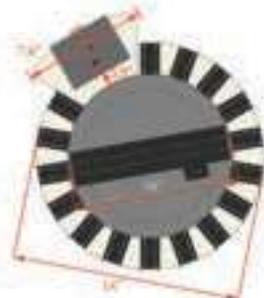

E-Z COMMAND® DCC SYSTEM

E-Z COMMAND® DIGITAL COMMAND CONTROL SYSTEM (continued)

HO DCC-EQUIPPED TURNTABLE

Item No. 46298 • Suggested price: \$351.00

This DCC-equipped Motorized Turntable features:

- DCC-equipped with dual-mode NMRA-compliant decoder
- track powered from track position number 4 (separate power supply not required for DCC operation)
- 16 nickel silver track positions
- gear drive
- turntable indexed to each track section for accurate alignment
- painted maintenance building
- prototypical operator's cabin
- designed for use with Bachmann's E-Z Track®
- easily adaptable to other popular track systems
- spring-loaded direction switch and wires provided for DC (analog) operation if desired

DCC CONTROL BOX with TURNOUT DECODER

Item No. 44949 • Suggested price: \$43.00

- compatible with N, HO, On30, and O scales

This control box with turnout decoder allows you to upgrade your electrically operated analog turnouts to DCC quickly and easily. To upgrade, simply replace your analog switch box with this decoder-equipped control box. Once connected, you can assign a decoder address and operate the turnout through your DCC system. Compatible with N, HO, On30, and O scales.

HO SCALE TRACKSIDE TURNOUT DECODER

Item No. 44930 • Suggested price: \$53.00

This HO scale trackside turnout decoder lets you upgrade your electrically operated analog turnouts to DCC quickly and easily. With a decoder installed inside the trackside structure, this flexible design can be used in two ways; plug-and-play use with Bachmann's E-Z Track® system is available by snapping off break-away tabs at the bottom of the structure and plugging into the structure the appropriate wires from your track power source and turnout section. Alternatively, you can make the same connections by soldering to easily hide the wires through a hole under your layout. Once connected, you can assign a decoder address and operate the turnout through your DCC system.

CONTROLLERS AND POWER SUPPLY

NICKEL SILVER E-Z TRACK® OVAL with SPEED CONTROLLER

Item No. 44551 • Suggested price: \$175.00

Get started in the snap-fit E-Z Track® system with the Nickel Silver E-Z Track® Oval. Comes with 12 pieces of 18" radius curved track, three pieces of straight track, one straight terminal rerailer, and a standard DC speed controller. All you need now is the HO scale train of your choice (sold separately).

STEEL ALLOY E-Z TRACK® CIRCLE with SPEED CONTROLLER

Item No. 44214 • Suggested price: \$110.00

Locomotive not included

POWER PACKS

POWER PACK and SPEED CONTROLLER
 (appropriate for N, HO, and On30 scale trains;
 not DCC compatible)
 Item No. 44211 • Suggested price: \$110.00

LARGE SCALE POWER PACK and SPEED CONTROLLER
 (appropriate for Large Scale trains;
 not DCC compatible)
 Item No. 44217 • Suggested price: \$110.00

16V DC MULTI-ACCESSORY POWER SUPPLY

Item No. 44219 • Suggested price: \$70.00

Now you can power multiple accessories from one convenient power supply.

- several accessories can be attached to each side of the power supply for up to 1 Amp total load.
- typical 16V DC accessory attachments are approximately three per side (six total)
- for use with all scale accessories

E-Z LUBE[®], SMOKE FLUID, AND TRACK CLEANER

E-Z LUBE[®] INDIVIDUALLY PACKAGED LUBRICANTS

GREASE
(0.5 oz.)
Item No. 99982

HEAVY GEAR OIL
(1 fl oz.)
Item No. 99983

LIGHT GEAR OIL
(1 fl oz.)
Item No. 99984

Lubricants for Model Railroad Professionals

For the best care and maintenance of metal-to-metal and other moving parts on motive power, rolling stock, and track, Bachmann has a full line of premium-grade lubricants. Four E-Z Lube[®] products are offered:

- light gear oil
- heavy gear oil
- heavy duty grease
- conductive contact lubricant

Each of the lubricants has a specific purpose. We recommend Bachmann's Light Gear Oil (Item No. 99984) for use on all gears, bearings, valve gears, and side rods. Our Heavy Gear Oil (Item No. 99983) lubricates for extended periods of time and should be used for larger locomotive gears only. For applications requiring heavier viscosity products, such as Large Scale gears, it is best to use heavy-duty Grease (Item No. 99982). And for superior electrical pickup, contact maintenance, and track cleaning, your choice is Conductive Contact Lube (99981).

With proper maintenance, you can extend the life and enjoyment of your railroad equipment for many, many years. We urge you to establish a sensible maintenance schedule and to use our E-Z Lube[®] products for professional care.

SMOKE FLUID
(4.5 fl oz.)
Item No. 00251
Suggested price: \$17.50

RAIL & ROAD TRACK CLEANER
(6 fl oz.)
Item No. 99992
Suggested price: \$17.50

Williams
by BACHMANN®

E-Z STREET® VEHICLES

Now your model town or city can get moving with the E-Z Street® track system and E-Z Street® vehicles. The E-Z Street® modular system snaps together to create realistic one-lane or two-lane roads and intersections. Some suggested configurations include using four sections of 90 Degree Crossover Track (Item No. 00268) to form a two-lane four-way intersection. The 16" diameter curves (Item No. 00261) nest inside the 21" diameter curves (Item No. 00262) for realistic two-lane roads. When planning your track layout, note that you need to use 2.5" Straight to Curve Track (Item No. 00264) anytime you want to connect straight track (5" Straight, Item No. 00266 or 10" Straight, Item No. 00267) to a curved section.

To add power to your E-Z Street® system, you must connect Power Wires (Item No. 00270) to the underside of a section of 10" Straight Track (Item No. 00267). If you would like to create an urban siding off of your track mainline, use our "To Track" Connector Pins (Item No. 00272) to connect to an O Gauge or Q-Z7 tubular track system.

From open rural highways to busy city downtowns, E-Z Street® offers limitless possibilities for fun!

E-Z STREET® SEDANS

Navigates 16" diameter curves • Length 4.5" • Height 1.5"

Suggested price: \$99.95 each

Get behind the wheel of these cars designed for the E-Z Street® track system.

Features include:

- forward operation only on O Gauge E-Z Street® track system and straight or curved three-rail track
- may also operate on some three-rail turnouts and crossovers

EMD F59PHI LOCOMOTIVE

Navigates O-31 curves • Length 15.75"
• Width 2.5" • Height 3.875"

Suggested price: \$539.95 each

The EMD F59PHI is a diesel-electric locomotive still hard at work on passenger trains in the United States and Canada. It was first built in 1994 by General Motors' Electro-Motive Division (EMD) and later by EMD's successor company, Electro-Motive Diesel. With its sleek streamlined design and distinctive detailing, our F59PHI is the perfect addition to your modern passenger railroad.

Features include:

- True Blast® Plus 16-bit polyphonic sound including prime mover, horn, and bell
- dual vertical motors with flywheels
- headlights with prototypical directional lighting
- operating ditch lights
- 5-wheel drive with traction tires
- die-cast trucks, fuel tank, pilot, and wheels
- operating die-cast metal couplers
- illuminated number boards and marker lights
- roof vent detail and lift rings
- etched brass screens on sides
- separate fan covers with freely rotating fans
- separate metal steps
- rear platform detail
- fully-sprung opening cab doors
- two engineer figures
- separate windshield wipers
- metal chassis
